SMITH

TOOLS & ACCESSORIES

WE'VE GOT YOU COVERED.

WELCOME TO THE LATEST TOOLS AND ACCESSORIES CATALOGUE

To complement our trade sign manufacturing and material supply service, we now hold an extensive range of high performance tools and accessories to help all sign-makers and anyone using self-adhesive films complete their projects professionally and without any fuss.

Suitable for beginners or professional users, all products in this catalogue have been carefully selected to provide solutions to the many challenges faced by our customers during the manufacturing, fitting, or application processes in the signs, graphics and building interior industries.

WHY ORDER FROM WILLIAM SMITH?

With over 185 years of customer experience, William Smith has grown into a leading UK distributor of self-adhesive materials and associated accessories.

Many of the products we sell in this catalogue are tried and tested by us. We use them to produce trade signs and graphics, letters and logos and in the training courses we offer through our Academy.

William Smith place high standards in everything we do. As a trade-only company; we understand customers, respect their business, and offer a reliable and dependable service. Most importantly, you benefit from friendly and experienced staff who can advise and recommend the best material for your specific requirements.

3M SURFACE PREPARATION CLEANER

For correct preparation and cleaning of the vehicle surface prior to wrapping, this petroleum distillate based cleaner removes all traces of oils and waxes.

Top Tip:

Apply 3M surface prep with one cloth and remove with a second clean cloth.

AVERY DENNISON FLAT SURFACE CLEANER

- Suitable for large flat panels and rigid sided trucks
 - Removes day to day dirt from substrates during first pass cleaning
- 5L

AVERY DENNISON SURFACE CLEANER

- A high performance cleaner
 - Removes all kinds of residue in one single action
 - Solvent free making it an environmentally friendly option
- 1L

3M SCOTCH-BRITE EASY ERASER PAD

- For use with 3M Cleaner for Matt Wrap Films
 - Only a small amount of cleaner and light pressure needed to remove dirt
- 6 pack

WIZARD PRO TOOLS MICROFIBRE CLOTH PURPLE

- Supersize 40cm x 60cm plush microfibre cloth
- Lint Free and dust free reducing the risk of damage to vinyl's
- Durable and machine washable for long term use

Top Tip:

Spray the liquid directly onto a cloth rather than the vehicle as over spraying can bleed into hard to reach areas.

SUPREME WRAP POWER CLEANER

- Protects and cleans vehicle wraps
 - Suitable for all wrap finishes
 - No additional water required
- 946ml

SUPREME WRAP CARE CLEANER

- Cleans vehicle wrap films; removes dust, fingerprints and other marks
 - Suitable for all wrap finishes
 - Water based product
 - No additional water required
- 946ml

SUPREME WRAP CARE SEALANT

- Provides protective layer making it easier to clean off dirt, bird droppings and tree sap
 - Suitable for all wrap finishes
 - No additional water required
- 946ml

VION SURFACE CLEANER

- For cleaning before application.
 - Spray on any surface to remove dirt, grease and adhesive residue before film application.
 - Surface cleaner works fast and dries during polishing.
- 1L, 1L 6 pack

Removes dirt, grease and adhesive residue

For quick and easy surface cleaning

One litre bottle available

SUPER DEGREASER

- Silicone industrial cleaner which removes all silicone, grease, tar, oil, adhesive, paraffin and car importers wax
 - Apply then remove with a cloth to achieve a degreased surface
 - Harmless for all car paints
 - Industrial degreaser
- 1L

VION®

VION WINDOW FILM POLISH

Apply film polish to provide a protective layer on window film after application. It will help to protect the film from scuffs and scratches over time.

500ml

Produces a protective layer

Prevents scratches and scuffs

For use with window films

Top Tip:

Any surface contamination will prevent films from adhering properly, which could potentially lead to a costly failure over time.

TINT-OFF WINDOW FILM REMOVER

- Soluble liquid designed to help remove self-adhesive films from windows
- Easy to use and apply
- Unique formulation

1L

DIRT-OFF

- Recommended for cleaning windows before applying vinyl
- Contains a highly diluted 'acid' for removing grease, oil and dirt from glass without damaging its surface
- Ideal for use as a bonding aid to improve adhesion to rear windscreen demisters

0.9463L

INDUSTRIAL GLASS CLEANER

- Cleans large glass areas and window
- Pleasant odour, no lingering smells
- Deep-cleans and dries fast
- Cleans and degreases glass without leaving stripes

1L

SILICON WAX REMOVER

- For removing wax on the surface prior to vinyl application
- A strong silicone remover which dissolves the wax and degreases the surface for a great application

1L

TAK RAGS

- Strong and durable
- Suitable for both wet and dry use
- High absorption capacity and speed

50 pack

VHB SURFACE CLEANER

- An odourless, colourless cleaner that evaporates quickly prior to adhesion of 3M VHB tapes
- Leaves no residue
- Cleans and degreases

1L

SOTT CLAY BAR

- Perfect for deep cleaning vehicles before applications
- Breaks down stubborn dirt, that degreasers and cleaners can't

RIGHT ON APPLICATION FLUID

An application liquid used to apply self-adhesive film fast and effortlessly without air bubbles and wrinkling. Right-On allows the film to be repositioned after the initial application. It is suitable for use on all wet applications. 3 minutes to position before adhesion starts. 1L, 5L

Ideal and easy to use for all wet applications

Faster than soap and water

Available in one litre and five litre bottles

VION®

3M PAINT PROTECTION FILM INSTALLATION GEL

- Provides easier installations and better final appearance of paint protection films
 - Enables longer handling times due to thicker floating barrier
 - Clings well to vertical and horizontal surfaces
- 1 Gallon

SLIDE ON

- Application concentrate for applying window films
 - Leaves no residue or residue in spray bottles
 - No milky haze or air bubbles under the film
- 500ml

AVERY DENNISON APPLICATION GEL

- Transparent gel designed to support the application of paint protection films
 - Easily cleaned after application even when fully dried
 - Available in 1 and 5 litre bottles
- 1L, 5L

AVERY DENNISON SPRAY BOTTLE

- High quality bottle
 - For use during wet applications and can be used in all orientations and angles
 - Perfect for paint protection film applications when used with Avery Dennison Application Gel
- 1.2L

AVERY DENNISON ADHESIVE REMOVER

- A high performance cleaner
 - Easy to use and apply
 - Removes all adhesive residue
- 500ml

VION RIGHT OFF ADHESIVE REMOVER

- Removes adhesive residue in just 2 minutes
 - PH neutral and harmless to substrates
 - Suitable for use on all types of film
- 1L, 5L

3M GRAPHIC REMOVER

- PH-neutral film and adhesive remover
 - Removes compatible 3M graphic films
- 1L

EDGE SEALER FOR 3360 HAZARD TAPE

- For use with VION 3360 Hazard Tape only
 - Creates a barrier against moisture and prolongs the life of the tape
- 140ml

3M 3695A EDGE SEALING TAPE

- Prevents corrosion of metallised window films
 - Easy to apply
 - Available in 50m length
- 50mm Length

3M 3950 EDGE SEALER 8OZ WICK CAN

- Prevents film lifting due to exposure or cleaning
 - 8oz brush-in-cap
 - Suitable for window films
- 8oz

3M 4150S EDGE SEALER 8OZ CAN

- Prevents film edges lifting in heavily used areas
 - Designed for use on Aircraft films
 - Built in brush
- 8oz

AVERY DENNISON EDGE SEALER

- Colourless durable edge sealer
 - For use in demanding areas such as marine above waterline or areas with risk of chemical contamination
- 0.5L

SEAL IT PEN

- Fast drying
- Long lasting edge seal
- Compatible with all types of film

Cover Styl PRIMER

This surface primer adhesive can be used on planed wood surfaces. Application ensures the film adheres correctly and prevents it from sliding once applied.

- Ensures the material adheres correctly
- 1 litre container; covers approx. 50m²
- For absorbent surfaces

Top Tip:

If working in a confined space and can't use a solvent primer then two coats of this water based primer will do the job!

3M PRIMER 94

- Surface Primer
 - Promotes adhesion of 3M films to surfaces
 - Useful on a wide variety of substrates
- 230ml, 946ml

Top Tip:

Open windows!

3M WP 2000

- Helps adhesion of 3M DI-NOC films
- Water based and can be diluted
- Supplied in a four litre container

PM04 PRIMER

- Water based primer
 - Recommended for use with LX Interior films
- Available in 1kg or 3kg bottles

SOTT ADHESIVE ACTIVATOR

- For use on water based car paints and security films on glass
- Helps to increase the adhesive of sealers when used in sealing window films or security films on glass

Cover Styl PRIMER PLUS

This surface primer plus adhesive can be used on all surfaces and edges where Cover Styl' material is to be applied. Application ensures the film adheres correctly and prevents it from sliding once applied.

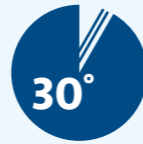

- One litre container; covers approx. 100-150 m²
 - Ensures the material adheres correctly
 - Use prior to all Cover Styl' applications
 - For use on hard surfaces
- Available in 250ml and 1L containers

THE DECISIVE EDGE.

KNIVES, BLADES & TRIMMING TOOLS

Knives & Cutters
Blades
Trimming Tools

Top Tip:

Use 30° blades for a sharper cut.

OLFA PROFESSIONAL CUTTER 30°

- 30° angle perfect for precision work
- Stainless steel handle
- Pocket clip and blade snapper

ADDITIONAL OLFA 30° SNAP-OFF BLADES
10 pack

AVERY DENNISON APPLICATION KNIFE

- 30° angled blade
- Specially designed for graphic applications
- Accurate cutting

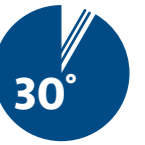

AVERY DENNISON CUTTER

- 30° angled blade with snap off blades
- Strong durable metal casing
- Robust durability for better control

ARLON STEALTH KNIFE

ADDITIONAL ARLON 30° STEALTH KNIFE BLADES
10 pack

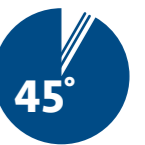

30° Ultra sharp cutting edge

Features a safe sliding lock

Built to withstand heavy use

NT HEAVY DUTY KNIFE

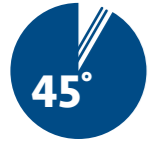

This heavy duty knife has an aluminium cast body for strength and rigidity.

Special click system for gradually releasing blades

Perfect for cutting plastics, films, etc

Heavy duty knife with aluminium diecast grip

OLFA CUTTER

- Gradual release blades

SNAP-OFF BLADES** 

10 pack / 50 pack

NT CUTTER - METAL GRIP

- Suitable for left and right hand use
- Special click system for releasing blades
- Designed cutter with metal grip

OLFA COMFORTGRIP X-DESIGN SERIES

- Black anti-slip rubber handle
- Auto lock
- Specially developed for use with special excel blades

**ADDITIONAL OLFA 45°
SNAP-OFF BLADES** 

50 pack

SWANN MORTON SLEEVED RETRACTAWAY HANDLE

- Safe hand retractable blade mechanism
- Highly versatile cutting tool
- Easy blade changing
- For use with 10A blades

ADDITIONAL SWANN MORTON
NO.10A NON STERILE BLADES
100 pack

Top Tip:

Using plastic handled knives removes the risk of glass and paintwork becoming damaged when cutting or trimming film.

SWANN MORTON 5A ACRYLIC HANDLES

- Acrylic handle
- Stainless standard blade fitting
- Pointed pliers should be used to attach and remove blades
- For use with 10A blades

ADDITIONAL SWANN MORTON
NO.10A BLADES

100 pack

SWANN MORTON NO.2 PLASTIC CRAFT HANDLES

- Ideal for precision work
- Thumbscrew for blade changing and retaining
- For use with No.2 craft blades
- 10 pack

ADDITIONAL SWANN MORTON
NO.2 CRAFT TOOL BLADES

50 pack

OLFA ART KNIFE

- Pen like knife with contoured handle
- Quick-spin easy blade change feature
- Suitable for left or right hand use
- Includes 25 blades

ADDITIONAL OLFA BLADES

25 pack

OLFA METAL CUSHION GRIP ART KNIFE

- Featuring anti-slip cushion grip handles
- Quick spin blade change with 4 extra blades
- Designed for left or right hand use

ADDITIONAL OLFA BLADES
25 pack

2 in 1 tool

NT ART KNIFE DELUXE (2 IN 1 AIR RELEASE)

- Multi-purpose cutter combining a knife and air release tool
- High quality design featuring an aluminium body
- Double ended with blades and needles that easily screw into each end

NT CUTTER DESIGNER KNIFE

- Manufactured from extremely durable plastic
- Stainless steel head
- Perfect for cutting of curves and openings in films

ART KNIFE DELUXE (2 IN 1 AIR RELEASE)

- Deluxe combination of a knife and needle
- Pen like shape with a comfortable yet sturdy grip
- 3 needles included, used to release air bubbles

AIR-RELEASE TOOL

- Retractable air release pen
- Help's remove air release bubbles when applying vehicle wrap or paint protection films
- Sharp, fine point

X-ACTO ART KNIFE ALUMINIUM

- Lightweight aluminium art knife
- Textured grip handle
- Includes 2 needles which can be used to release air bubbles
- For use with X-Acto blades only

ADDITIONAL X-ACTO BLADES
100 pack

SOFT SURFACE SCRAPER MINI

- Non scratch
- Adhesive and dirt removal

ADDITIONAL STRAIGHT SCRAPER BLADES
5 pack

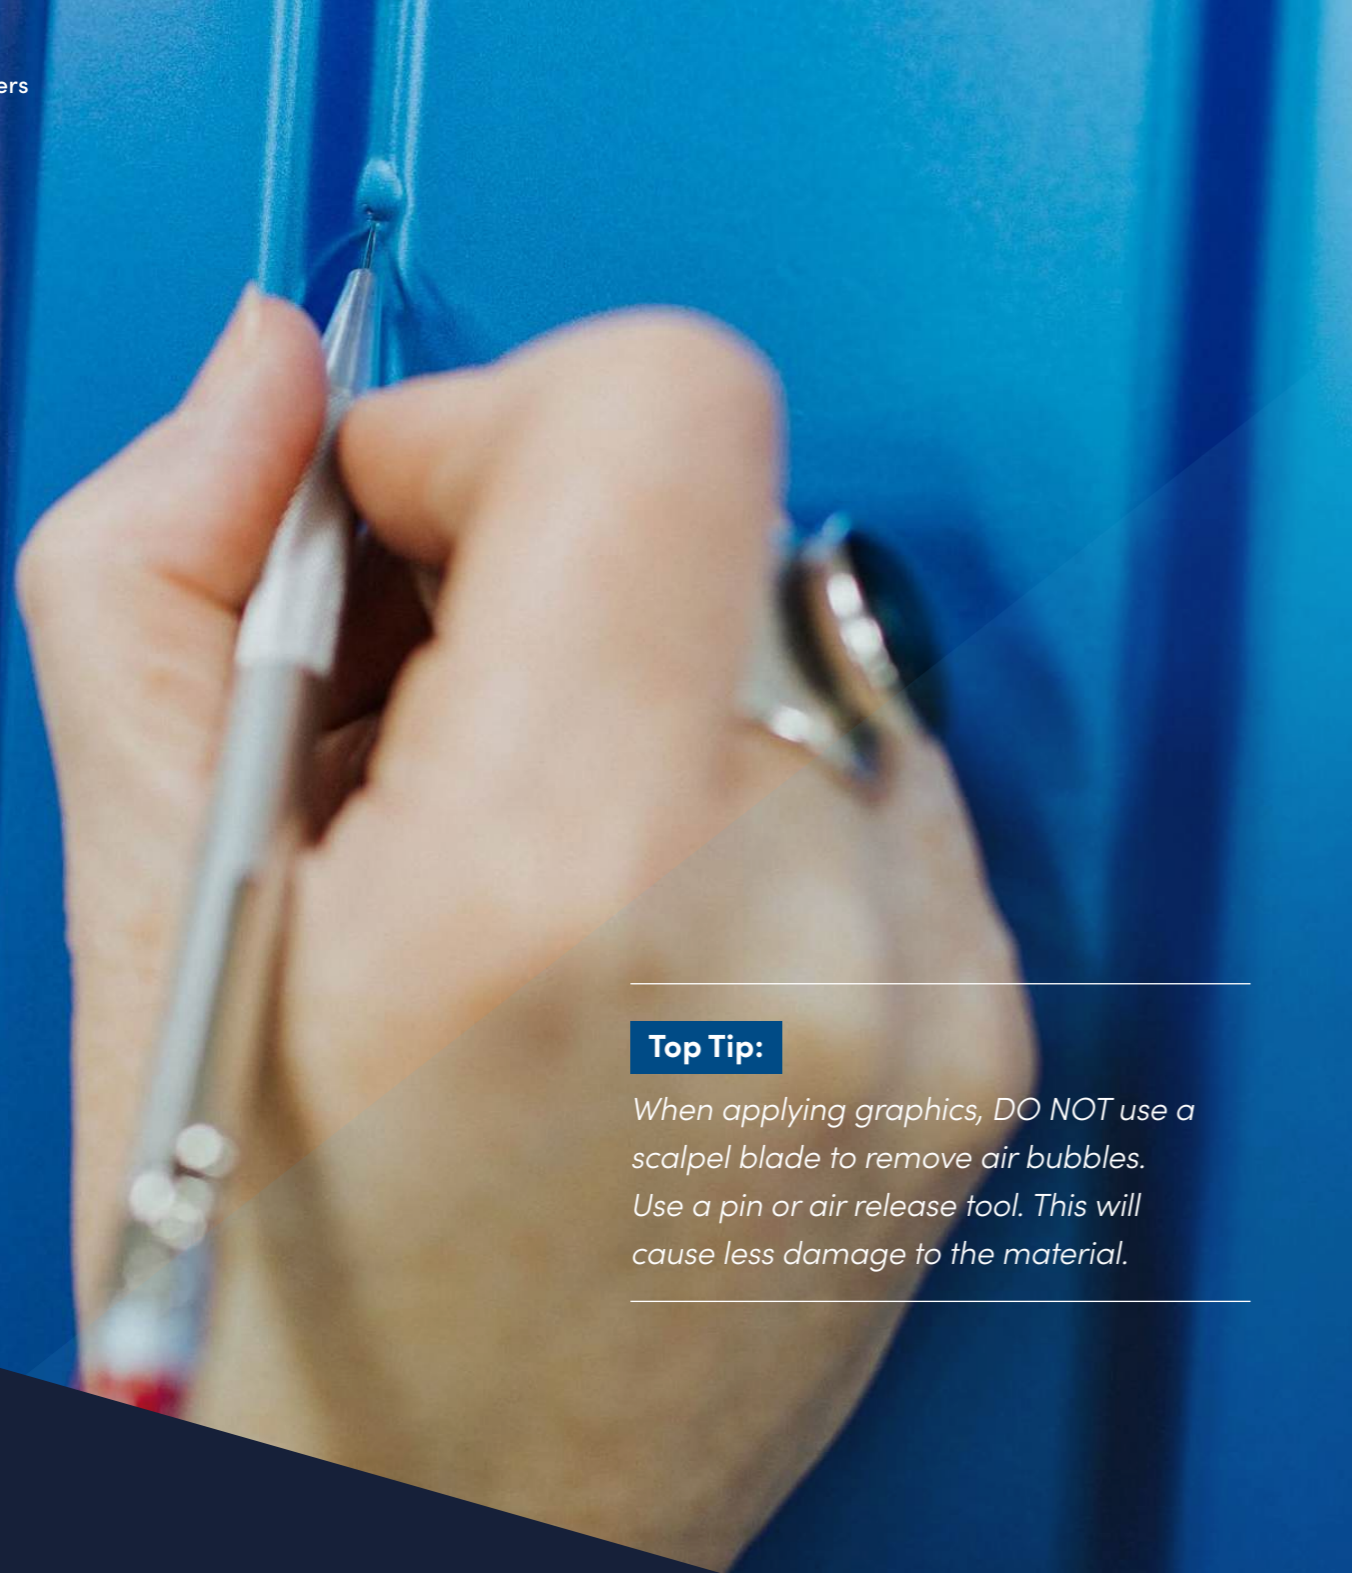

SCRAPERITE MINI (DWARF) COMBO SET

- Great little tool for effective removal of vinyl and adhesive
- Non scratch

COMBO SET INCLUDES:
x 3 curved x 3 straight blades

Top Tip:

When applying graphics, DO NOT use a scalpel blade to remove air bubbles. Use a pin or air release tool. This will cause less damage to the material.

3M AIR RELEASE TOOL

- Pen like air release tool
- Used to release air bubbles in vehicle graphics or paint protection films
- Additional replacement tips available

3M AIR RELEASE TOOL REPLACEMENT POINTS

- Replacement points for use in 3M air release tools
- Used to release air bubbles in vehicle graphics or paint protection films
- Sold individually

BACKING PAPER LINER CUTTER

New backing paper cutting tool specifically designed for Dinoc applications.

Glides perfectly between vinyl and paper liner

Powder coated pedestal to avoid sticking adhesive

Bigger handle

OLFA 45MM DELUXE HANDLE ROTARY CUTTER

- Ergonomic handle with anti-slip rubber grip
- Squeeze trigger to allow the blade to self-retract
- Designed for right and left handed use

SOTT PAPER/VINYL CUTTER

- Durable plastic with rubber inlays to prevent slipping
- Concealed head, making it a safe tool to use
- Suitable for left or right hand use

NT BACKING SLITTER

- Perfect for cutting backing paper without touching the film
- Cuts only the backing liner
- Adjustable 6 depth setting for various backing thicknesses

ROLLSROLLER LONG REACH CUTTER

- Lightweight long reach cutter
- Protected blade
- Easily attaches to ROLLSROLLER steel-frames
- Suitable for use to cut banners, textile, vinyl and paper
- Available in two sizes 600mm and 900mm
600mm, 900mm

SOFT TOUCH PROFESSIONAL SCISSORS

- Perfect for cutting vinyl
- Durable
- Sharp
- Original ROLLSROLLER Scissors

Top Tip:

*Cuts through vinyl as well
as just cutting the liner.*

3M SNITTY

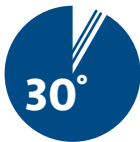

- For neat trimming of vinyl films
- Safe and easy to use
- Enclosed blade design

AVERY DENNISON SNITTY

- A mini-slitting tool
- For cutting self-adhesive material
- Complete with blade refill

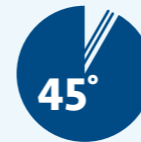

SPARE BLADES BOX

- Acts as a dispenser and a disposable container, it is supplied complete with 15 spare 30° blades
- Supplied complete with 15 spare 30° blades
- Dispenses and disposes blades
- Durable and hardwearing

ARLON STEALTH KNIFE BLADES

- Heavy duty 30° blades
- Carbon Steel for 25% sharper cuts
- For use with Arlon Stealth Knife

OLFA 45° SNAP-OFF BLADES

- Ultra sharp blades
- 45° angle
- Available in packs of 10 and 50 blades

OLFA 45° SNAP-OFF STAINLESS STEEL BLADES

- Replacement snap-off stainless steel blades
- 45° angle
- Available in packs of 10 and 50 blades

OLFA 30° SNAP-OFF BLADES

- Ultra sharp replacement blades
- For use with OLFA professional cutter tool
- 30° angle

NT 30° SNAP-OFF BLADES

- Replacement 30° snap-off blades
- For use with cutter – metal grip
- 10 packs of 5 blades

OLFA 45° LARGE SNAP-OFF BLADES

- Heavy duty 45° replacement snap-off blades
- High quality carbon steel for sharpness and durability
- Available in packs of 10 and 50 blades

OLFA 45° EXCEL BLACK SNAP-OFF BLADES

- Ultra sharp blades for precision cutting
- For use with OLFA professional cutter
- Available in packs of 50

Top Tip:

Black blades are 25% sharper.

Swann-Morton

OLFA 100MM FLEXIBLE BLADES

- 100mm flexible dual-edge scraper blades
- Strong and durable
- Suitable for use on vinyl materials
- Supplied in 10 pack

TRIUMPH SUPER SCRAPER BLADES

- Stainless steel double sided blades
- Replacement blades for Triumph Super Scraper
- Available in packs of 25

SWANN MORTON NO.10A NON STERILE BLADES

- Carbon steel non sterile blades
- Foil wrapped packets
- Pack of 100 blades for use with 5 or 5A retractable handle

OLFA BLADES FOR OLFA ART KNIFE

- 25 pack of replacement blades
- Carbon tool steel blades for durability
- For use with OLFA art knife

OLFA 1 BLADE

- Curved design for precision work
- Individually wrapped packets
- 50 pack

SWANN MORTON BLADE REMOVAL BOX

- Safe and effective blade removal and disposal unit
- Holds 100 blades

Top Tip:

Replace blades frequently to reduce the risk of dragging and damage to the application.

**BACKING CUTTER BLADES**

- Replacement blades for backing paper liner cutter
- Replacement blades for 3M and Avery Dennison Snitty's 10 pack

**X-ACTO BLADES**

- Replacement blades for use with X-Acto art knife
- Carbon steel sharpened for a reliable cut 100 pack

**LONG REACH CUTTER REPLACEMENT BLADES**

- Titan replacement blades for use with ROLLSROLLER long reach cutters 10 pack

**OLFA SAFE BLADE DISPOSAL UNIT**

- Disposable holster
- Two blade snapping positions
- Simple to use
- Easy blade snapping

THE ORIGINAL TRIM WIZARD – PURPLE

- A must have tool for architectural wrappers when wrapping kitchen doors and furniture
- Helps to trim with precision for a premium finish
- Adjustable thumb screw to allow you to adjust the trim space from 0mm – 40mm

WORKTOP WIZARD PLUS – GREEN ADJUSTABLE

- All the benefits of the Worktop Wizard with the added benefit of an adjustable spacer
- fits any thickness worktop up to to 42mm
- Enables you to trim straight, even borders effortlessly

WORKTOP WIZARD BLACK

- Enables you to trim quickly and consistently under worktops
- Creates a straight even border effortlessly
- Multiple distance slots to insert your blade
- Available in 20mm & 40mm

EDGE WIZARD – ORANGE

- Revolutionary trimming tool for achieving ‘perfect cut’ in corners
- Can be used on the back of worktops, inside windows and door frames
- Helps to achieve flawless results

WIZARD PRO GUIDE – YELLOW TRIMMING GUIDE

- Perfect tool for wrapping shaker doors and cutting vinyl inlays with ease
- Integrated 5mm & 10 mm marker points
- Must have tool for any architectural wrapping projects

WINDOW EDGE WIZARD – 5 PIECE SET AND STORAGE TIN

- Set of 5 trimming tools supplied in a re-usable metal storage tin
- Great for applying frosted window films
- For use with snap-off blades only

WIZARD PRO TOOLS STARTER KIT FOR ARCHITECTURAL WRAP

- High quality starter kit perfect for Architectural Wrappers
- Kit includes Trim Wizard, Worktop Wizard 20mm, Worktop Wizard 40mm, Edge Wizard, Ultimate Green Squeegee and No Frill Pink Squeegee

WORKTOP WIZARD BLACK STARTER PACK

- Trim quickly and consistently with the worktop wizard starter pack
- 2 pack including 20mm + 40mm trimming guides

WIZARD PRO TOOLS STARTER KIT - INC WORKTOP WIZARD PLUS

- Starter kit containing everything you need to get started wrapping kitchens, furniture and doors
- Kit includes Trim Wizard, Worktop Wizard Plus, Edge Wizard, Ultimate Green Squeegee and No Frill Pink Squeegee

CLEAN LINES.

KNIFELESS TAPES

Knifeless Tapes
Trim Tapes

KNIFELESS TAPES

Install any vehicle wrap film without using a knife or causing surface damage. Easily cuts through graphic films with sharp, clean lines, whatever the design.

- Replaces knife cutting during installations
- Eliminates surface damage from blades
- Allows more design creativity
- Ideal for many complex shapes and irregular surfaces
- No knife means there's no damage for you or your customers to worry about

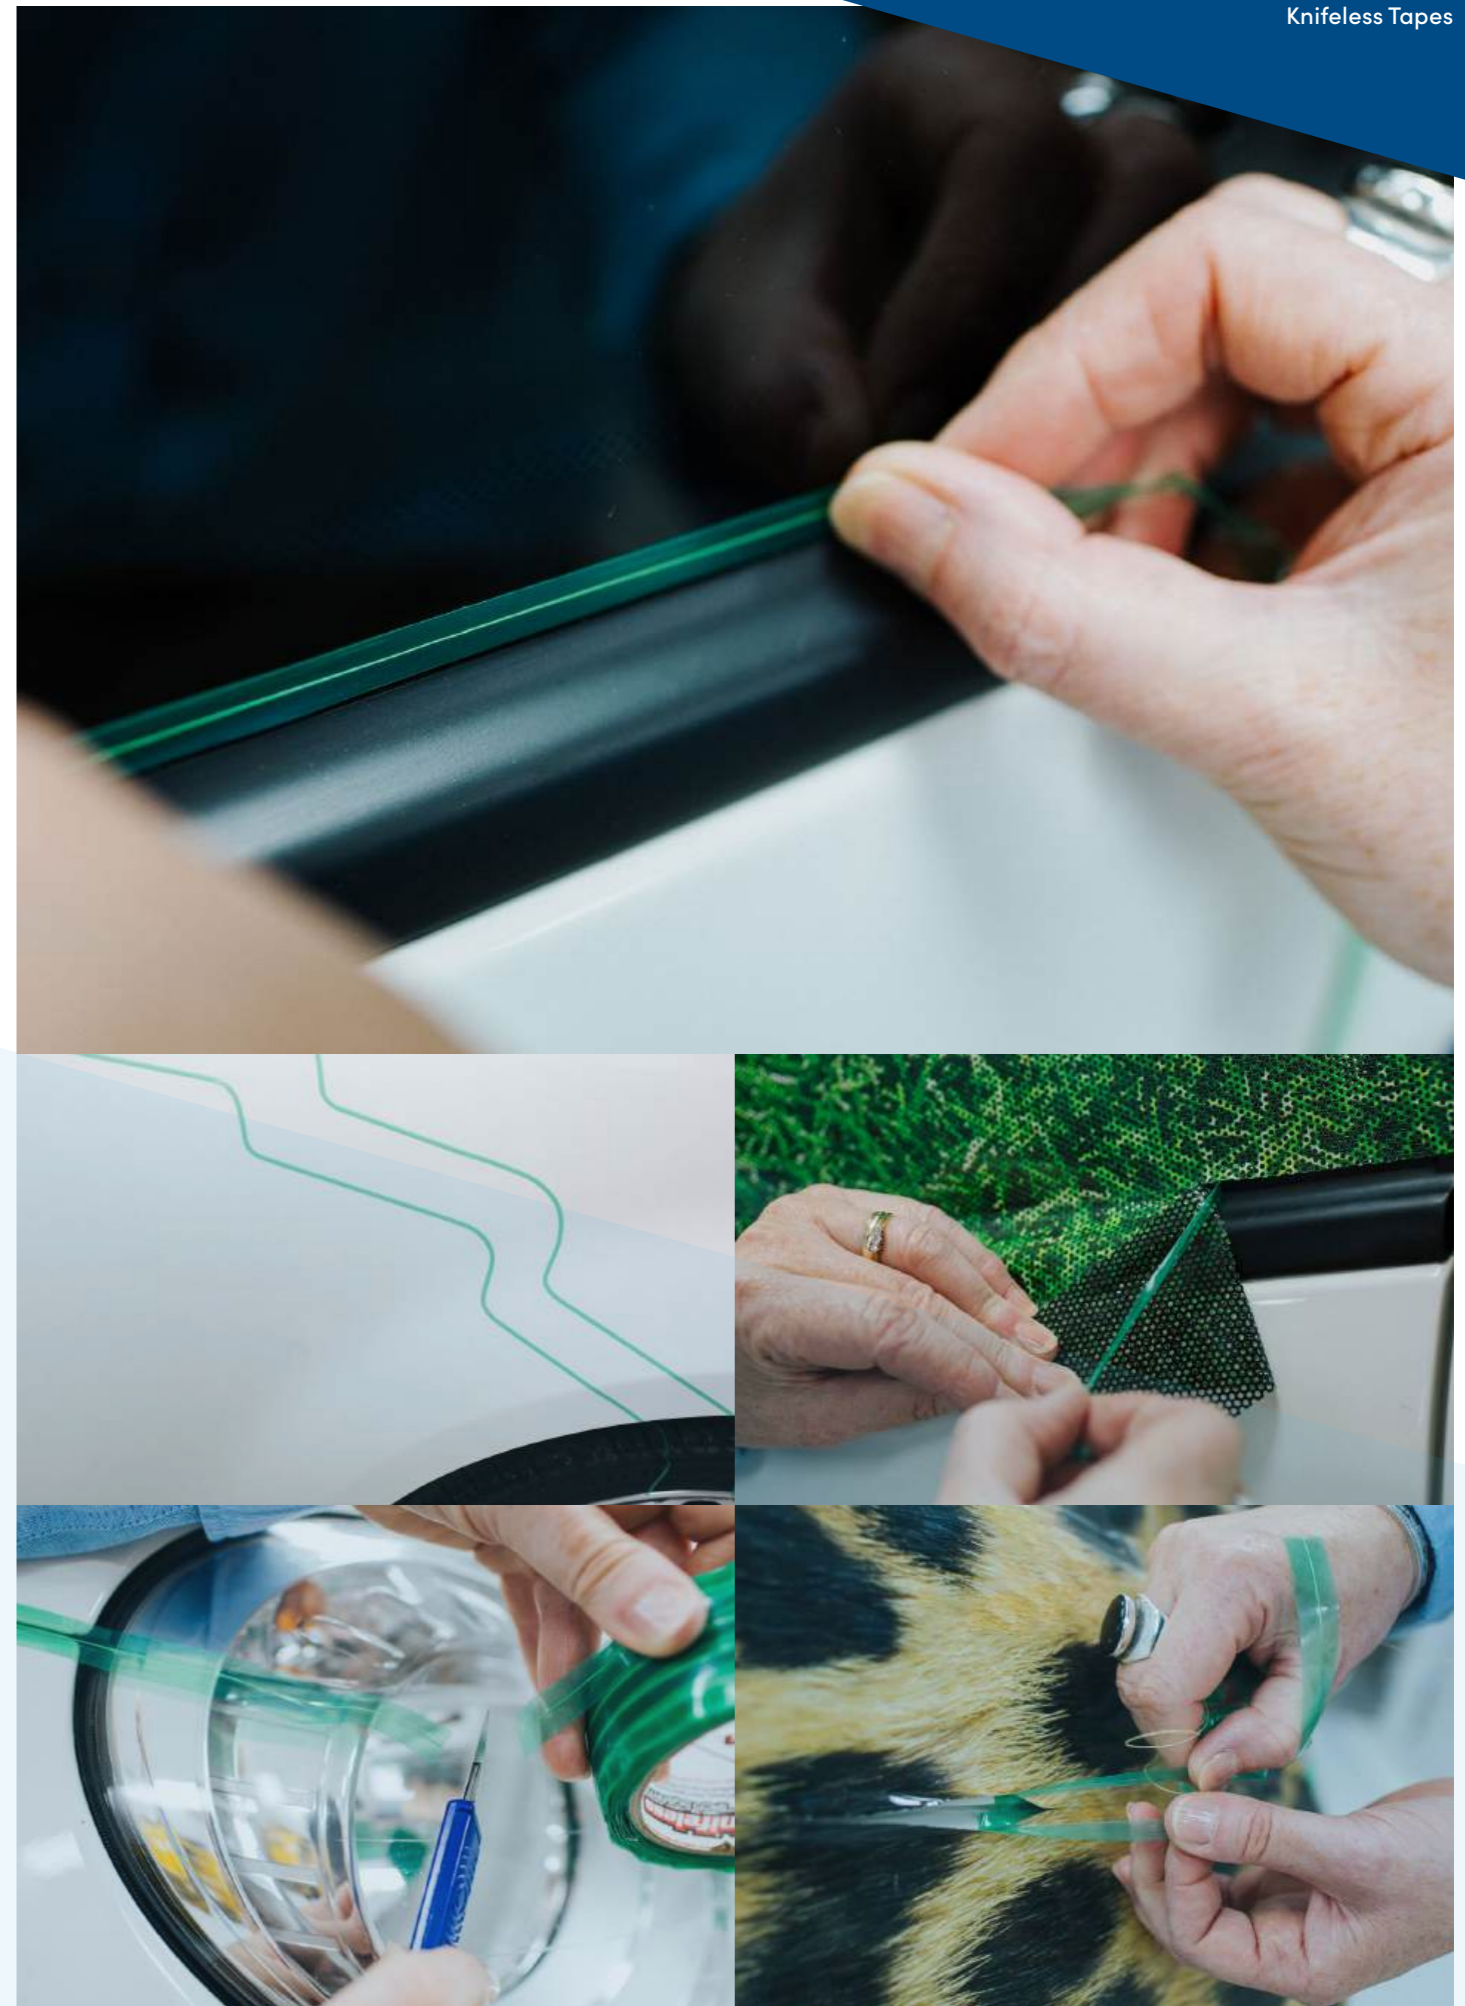

Ideal for finishing vehicle graphic installations without a blade

Conformable around bumpers, door handles and mirrors

Create precise cut lines

Available in 50m rolls

3M FINISH LINE KNIFELESS TAPE

Designed for basic trimming of panel edges, 3M Finish Line can be used on wrapping applications and is conformable around most areas including bumpers, door handles and mirrors.
3.5mm x 50m Roll

Ideal for finishing vehicle graphic installations without a blade

Conformable around bumpers, door handles and mirrors

Create precise cut lines

Available in 3.5mm x 50m rolls

3M TRI LINE KNIFELESS TAPE

- Create different widths using 6mm, 9mm or a combination of both
- Patented design stretches slightly and turns easily in any direction for one of a kind works of art
- For single layer vinyl applications
- Available in 6mm and 9mm rolls
6mm x 50m, 9mm x 50m

3M BRIDGE LINE KNIFELESS TAPE

- Create evenly cut graphics bridging from one panel to the next for a professional finish
- For single or multiple vinyl layer applications
- Available in 50m rolls
12mm x 50m

3M DESIGN LINE KNIFELESS TAPE

- Allows stretching, follows contours and turns easily in any direction
- Excellent for creating designs and stripes
- The tape can be broken with hands for faster application
- For single layer vinyl applications
- Available in 3.5mm x 50m rolls
3.5mm x 50m

3M PERF LINE KNIFELESS TAPE

- Cut laminated, perforated window films with a clean and sharp edge
- Create uniform relief cuts along rubber mouldings
- Can be used to bridge tight gaps and trimming
6.35mm x 50m

3M TRIM TAPE

- Flexible, conformable, versatile and moisture resistant
- Trim with sharper and straighter lines
- Easy to apply and removes cleanly
6mm x 32.9m

3M PRECISION LINE KNIFELESS TAPE

- Create clean, seamless butt joints between the most challenging films
- Can be torn by hand for faster application
- For single or multiple layer vinyl applications
5mm x 50m

SMOOTH OPERATOR.

SQUEEGEES & ROLLERS

Squeegees
Handles
Application Rollers

3M FELT EDGED BLUE SQUEEGEE

Scratch resistant felt edged squeegee ideal for vehicle wrap applications, with a twin edge for dual use.

- Twin edge for dual use
- Soft felt eliminates scratches
- Ideal for vehicle wrap applications

Soft felt eliminates scratches

Top Tip:

When using a squeegee on 3M Controltac wrapping films you must use firm consistent pressure to break the glass beads in the adhesive. This enables maximum adhesive contact and avoids any rashing issues.

3M FELT EDGED GOLD SQUEEGEE

- Quick turn for dual use
- Ideal for vehicle wrap applications
- Also known as a twin edge gold applicator

3M PA-1 BLUE APPLICATOR

- Great squeegee for everyday use
- Durable, long-lasting vinyl construction for smooth substrates
- Softer than 3M PA-1 Gold Applicator

3M PA-1 GOLD APPLICATOR

- For professional users, it is abrasion-resistant and extremely durable
- Medium hard, high glide and long lasting
- Can also be used with cotton sleeves to lessen risk of scratching

3M CPA-1 POWER GRIP COMPLY APPLICATOR

- Designed only for films with Comply Adhesive feature
- Felt wrapped edge
- Applicator makes it easy to cover large areas

3M VENTURESHIELD SQUEEGEE

- For the application of 3M VentureShield
- Soft durable rubber squeegee

3M WHITE APPLICATOR

- Extremely hard applicator with little flexibility, abrasion-resistant
- Ideal for Di-Noc film applications
- Can also be used for professional vehicle wrapping

Top Tip:

The wetting of sleeves helps to avoid scratches on film surfaces during application.

3M MICROFIBRE SQUEEGEE STRIP

- Thin, soft micro-fibre strip
- For use on PA-1 gold squeegees
- Ideal for applying vehicle wrap films
- Minimum order quantity 10*

3M COTTON SQUEEGEE SLEEVES

- Helps prevent scratches if no application tape is used
 - Designed to fit over standard 3M gold and blue squeegees
 - Ideal for vehicle wrap applications
- 5 pack

3M FELT APPLICATORS

- Non scratch felt block
- Designed not to scratch printed surfaces
- Ideal for mirror and window films

SQUID SQUEEGEE

- Hard teflon squeegee ideal for window film applications
- Wider width for larger coverage
- 90° corner for tight edge installs

COVER STYL' SQUEEGEE

- Soft flexible dual use squeegee
- Perfect for use with Cover Styl' Architextural films
- Felt edge to eliminate scratches

SQUEEGEE SHARPENER

- Handy sharpener tool
- Small knife in the groove which when pulled through fully smooths worn out squeegees

Top Tip:

Renews your squeegees.

COVER STYL' SQUEEGEE FELT PAD

- For use with Cover Styl' Squeegees
- Ideal for applying Cover Styl' Architextural films
- 13cm felt pad used to prevent scratches

SQUEEGEE PRO

- Great for vehicle wraps
- For flat and slightly curved surfaces
- Medium felt squeegee
- Available single or in packs of 12

**SQUEEGEE PRO XL**

- A larger 15cm version of the squeegee Pro
- Ideal for large and flat surfaces e.g. truck sides, buildings and buses

**ARLON THE ONE SQUEEGEE**

- Featuring two edge thicknesses
- Built for durability and precision, ensuring consistent performance in demanding applications
- Complete with velvet strip

**ARLON VELVET CANDY FELT**

- Super soft and durable for smoother applications
- Suitable for both wet and dry applications
- For use with The One Squeegee

**SQUEEGEE PRO RIGID**

- For flat applications of thick and rigid high performance films
- Very rigid squeegee
- For use on vehicle wraps and day to day applications

**AVERY DENNISON PPF SQUEEGEE PRO FLEX SMALL**

- For use when applying paint protection films
- Enables installers to achieve the correct install pressure
- 65mm wide making it suitable for tight detailed spaces when applying vehicle wrap films

**ARLON THE BLADE SQUEEGEE**

- Robust and heat resistant triangle squeegee, making it able to withstand high temperatures without melting
- Flexible making it perfect for vehicle contours
- Thin, delicate rounded corners prevent film punctures, even under high heat

**ARLON STEALTH TOUCH MICRO-SQUEEGEE**

- Flexible yet firm squeegee for those hard to reach areas
- Smooth edge design with micro rounding to prevent film cutting
- Compact and small design which fits perfectly into toolbelts

**SQUEEGEE STRIPS**

- Available in packs of 25 strips
- For use on Avery Dennison Squeegee Pro, Pro Flexible and Pro Rigid
- Ideal for applying vehicle wrap films

**SQUEEGEE STRIP ROLL 5M ROLL**

- Easy to cut to size
- Handy ruler on the side of the box
- Reduces scratching of material when applying vehicle wrap films

**SQUEEGEE ORANGE (FLEXIBLE)**

- Non felt flexible squeegee
- Perfect for applications of paint protection and window films
- More flexible version of the Squeegee Yellow

**SQUEEGEE YELLOW (RIGID)**

- Rigid non felt squeegee
- For applications of window and paint protection films
- A rigid but still flexible squeegee

**SQUEEGEE PRO FLEXIBLE**

A softer and more flexible version of the Squeegee Pro. Ideal for curved applications e.g. wheel arches and car bonnets.

Together with the Squeegee Pro, it suits virtually all surfaces, saving time and delivering better results.

- Soft flexible squeegee
- Ideal for curved applications

Ideal tool to support film applications in narrow concave parts of a vehicle

Designed to apply film on narrow curved edges to ensure seamless applications

SQUEEGEE FLEXTREME

A micro squeegee designed for vinyl graphic applications.

- Micro squeegee
- Blue side for narrow curves and edges
- Red side ideal for narrow concave parts

CONTRA VISION PERFECTION SQUEEGEE

- Custom-designed for accurate installation, trimming, and finishing of perforated window films
- Durable PTFE construction glides effortlessly over both laminated and unlaminated films without needing protective sleeves
- Built-in cut guides at 3mm, 6.35mm, and 12.7mm ensure precise trimming

contra**vision**

TEFLON WHITE SQUEEGEE HARD

- A versatile tool used for installing window films and vinyl
- Small amount of flex to provide adequate pressure when applying films

TEFLON BLACK FLEX SOFT

- Window film application squeegee
- Ideal for use on both flat and curved glass surfaces

NO-FRILL ESSENTIAL SQUEEGEE WITH FELT

- Durable hard 4" squeegee with felt edge
- Suitable for flat applications
- Great for applying Architectural films

THE ULTIMATE SQUEEGEE – GREEN HARD FOR ARCHITECTURAL WRAPS

- Designed for applying architectural films smoothly, precisely and flawlessly
- 120mm wide
- 90° corner for tight edges

THE ULTIMATE SQUEEGEE – GREEN (WITH SQUEEGEE BUFFER APPLIED)

- Perfect for applying architectural films on flat, hard surfaces
- Complete with squeegee buffer to help eliminate scratches

THE ULTIMATE SQUEEGEE – FLEX FLEXIBLE EDITION

- Super flexible 120mm wide squeegee
- Conforms to almost any shape or angle
- Comfortable grip and multiple radius corners

THE ULTIMATE SQUEEGEE – FLEX EDITION (WITH SQUEEGEE BUFFER)

- Ideal for applying architectural films
- Complete with squeegee strip to eliminate scratches
- Allows you to apply films smoothly even in difficult areas

THE ULTIMATE SQUEEGEE XL – PINK HARD – 170MM LONG

- 170mm long squeegee allowing you to apply more material in a single stroke
- Designed for applying architectural films smoothly and precisely
- For use on flat and hard surfaces

THE ULTIMATE SQUEEGEE XL – PINK (WITH SQUEEGEE BUFFER)

- Ideal for applying architectural films to kitchen areas and furniture wraps
- Multiple radius corners for those tricky areas
- Complete with squeegee strip

WIZARD PRO TOOLS SQUEEGEE BUNDLE – ULTIMATE GREEN & NO FRILL PINK

- Ultimate squeegee bundle pack
- Includes Ultimate Squeegee and No Frills Squeegee

WIZARD PRO TOOLS – SORCERER SET

- Perfect squeegee set for the application of architectural films
- Includes No-Frill Essential Squeegee, Ultimate Green Hard Squeegee, Ultimate Pink Hard Squeegee and Ultimate Flex Flexible Squeegee

ULTIMATE BEAST SQUEEGEE

- 240mm wide squeegee
- Perfect for use when applying large architectural films
- For more smoother, streamlined applications

ULTIMATE BEAST SQUEEGEE (WITH BUFFER)

- Great for applying vinyl to larger areas
- Complete with squeegee buffer
- 240mm wide squeegee

WIZARD PRO TOOLS PRO BUFFER - 380MM LONG (CUSTOMISE YOUR SIZE)

- Extra-large squeegee buffer that can be trimmed easily to fit any size squeegee
- Scratch free applications every time
- Low tack adhesive for clean removal

WIZARD PRO TOOLS ULTIMATE MINI SQUEEGEE HARD 60MM LONG

- 60mm wide, hard mini squeegee
- Multiple radius corners for those hard to reach areas
- Designed for applying vinyl smoothly, precisely and flawlessly every time

WIZARD PRO TOOLS ULTIMATE MINI SQUEEGEE FLEX 60MM LONG

- 60mm wide, flexible mini squeegee
- Conforms to almost any shape or angle with pressure
- Perfect for all wrapping applications

FELT SQUEEGEE

- Perfect solution for scratch-free applications
- Can be used wet or dry
- Ensures smooth applications

TEFLON YELLOW SQUEEGEE

- 15cm non scratch soft flexible squeegee
- Perfect for use on large curved windshields

THE YELLOW SHUTTLE

- Rigid plastic squeegee for applying automotive window films
- Fits into nearly all corners due to the many different angles

THE SLAMMER

- Non-scratch
- Ideal for hard to reach areas
- For use on automotive window films

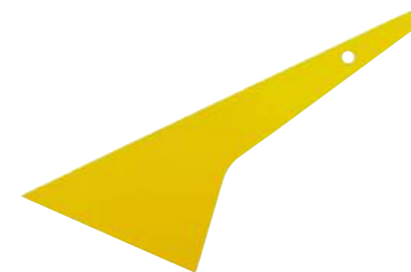

THE PLOW

- Perfect for curved surfaces such as windshields
- Adapts itself to each surface
- Strength and rigidity for a firm grip

THE RED DEVIL

- Very thin flexible squeegee
- Designed for reaching sharply angled corners

YELLOW QUICKFOOT

- Stiff, smooth plastic squeegee
- Fits variety of differently angled corners
- Perfect for use in pushing back window rubbers

PLATINIUM SILVER EZ SQUEEGEE MEDIUM

- Smooth and flexible squeegee
- Perfect for car wrap films and automotive window films
- Fits into hard to reach areas and corners

GOLD EZ SQUEEGEE SOFT

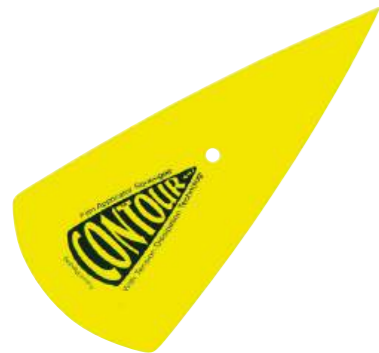

- Smooth and flexible
- Ideal for hard to reach areas
- Perfect for applying car wrap films and automotive window films

**LIL' CHIZLER**

- Small thin window film squeegee
- Great for small areas
- Aids removal of dirt and old adhesives

**YELLOW CONTOUR MEDIUM**

- Can be used for window and car wrap film
- Aids fitting vinyl under rubber sealing strips
- Medium hard

**THE CHIZLER**

- Ideal for applications in tight corners
- Hard plastic with rigid edges
- Durable

**DIAMOND TIP
YELLOW
SQUEEGEE**

An essential window film squeegee for applying vinyl in hard to reach areas. Due to the special design and sharp edges of this squeegee it won't scratch glass.

- Rigid plastic with sharp edges
- Ideal for hard to reach areas
- Non scratch

THE TITAN

- Manufactured from sturdy, flexible and unbreakable plastic
- Profile variations provide versatility
- Ideal for deep and low-lying rear windscreens
- Perfect for getting into corners and between window seals

ORANGE CRUSH

- Stiff plastic squeegee
- Ideal for removing moisture from under films
- Available in 13cm and 20cm
- Compatible with Fusion 5 and Fusion 8 handles

THE SLIMFOOT

- Special long thin squeegee
- Ideal for hard to reach areas
- Perfect for use on flat rear windows

THE PINK SHAVED SQUEEGEE

- Ideal for applying paint protection films
- Medium squeegee with thin flexible edges
- Allows you to apply the right amount of pressure on bonnets, bumpers, roofs, wings and doors

SOFTLINE TURBO SQUEEGEE

- Firm yet very soft when used during wet application
- Specially shaped for squeezing in window frames and difficult corners
- Available in 9cm and 14cm

SQUEEGEE

- 10 cm stiff and sturdy professional squeegee
- Multi-purpose
- Rubber/plastic composite which makes it stable and exerts good counter pressure for power squeegeeing

THE BLUE MAX

- Suitable for wet and flat applications
- Blade squeegee for maximum water removal from automotive or flat glass installations
- Perfect for thick and stiff films

CONQUERER SQUEEGEE

Specially designed squeegee for the installation of window film in hard to reach areas.

The yellow bladed conquerer features a soft squeegee blade along one edge and pointed hard tips on the opposing edge making it an essential tool.

- Ergonomic design
- Specially designed for installation of window films
- Perfect for applying film in tight and sharp angled corners

THE CLEAR MAX

- Ideal for wet and slightly curved applications
- A slightly softer version of the popular Blue Max squeegee blade
- Features a bevelled front edge

5 WAY TOOL

- Tough plastic ruler squeegee
- Unique design for window edges and corners
- Specially shaped 5 way sides

THE CHISEL

- Slender form enables seal to be lifted easily
- Ideal for guiding and applying vinyl under window and door seals

THE BULLDOZER

- Apply film in hard to reach areas
- Squeegee adapts to the curve of the window
- Rubber strip on the end of the blade removes last drops of moisture
- Ideal for vehicle rear windscreens

THE SHANK

- Made from smooth plastic
- Slender shape ideal for seams and joints
- Perfect for vehicle wrapping and window film applications

THE EDGE

- Larger stiff squeegee with smooth finish
- Perfect for applying window tints to vehicles

SCOURING PAD SQUEEGEE

- Sturdy plastic squeegee allowing pressure to be applied when cleaning
- Scouring pad attaches to a strip of velcro
- Use to clean windows in hard to reach or large areas

3M SCOTCHBRITE SCRUB PAD

- Scouring pad for the removal of tough dirt on car and home windows
- For use on scrubber scouring pad squeegee

TRIUMPH SUPER SCRAPER

- For flat glass applications
- For use with 15cm Triumph super scraper blades
- Wide thin robust blade

SOTT-5 HAND GRIP - 13CM

- Sturdy anti-slip foam coated handle
- Allows extra pressure to be exerted on wet applications
- Perfect for use on large window areas

Top Tip:

Perfect tool when extra pressure is needed.

METAL SQUEEGEE HANDLE

- For use with The Blue Max and The Clear Max squeegee
- Performax handle is recommended for extra pressure
- 130mm (5") wide

FUSION HANDLE

- Unbreakable plastic handle for use with the orange crush squeegee
- Perfect for use with thick and hard films, security and window films
- Available sizes 13cm - fusion 5 and 20cm - fusion 8

OLFA EXTRA HEAVY DUTY SCRAPER

- 200mm dual-scrape, carbon tool steel blade
- Extra tough die-cast metal handle
- X-design non-slip rubber grip for comfort and stability

EASYGRIP HOLDER

- Perfect for plastic squeegees
- Easy to use
- For use with 10cm squeegees

3M TSA-1 TEXTURED SURFACE APPLICATOR

- Specialist tool
- For application of textured wall films on textured surfaces
- Suitable for large application areas

3M TSA-3 TEXTURED SURFACE APPLICATOR

- For application of textured wall films
- Suitable for application around cut edges and in corners, particularly mosaic-type applications
- Specialist tool

3M TSA-2 TEXTURED SURFACE APPLICATOR

- For application of textured wall films
- Ideal for application on mortar joints and inside corners

3M DEEP CHANNEL APPLICATION ROLLER

- For application into deep channels
- Small and large sizes available
- Applies uniform pressure when forming into deep corrugations

ROLLEPRO

45mm soft application roller that is ideal for applying vinyl into textured surfaces.

Over 50% faster installations which eliminates the need for brushes and other rivet applicators

Ergonomic design with specially formulated heat-resistant wheel

Works great with door handles, rivets and side mouldings

IT'S ALL IN THE DETAIL.

MEASURING TOOLS

Heat Guns
Digital Thermometers
Tape Measures
Rulers

STEINEL HG 2120 E HEAT GUN

The HG2120 E heat gun is perfect for intense work sessions internal and external. An all-rounder, it has a high performance motor and is ergonomics optimised, making it not only practical but comfortable to use. With 2200 W of power, it can deliver hot air between temperatures of 80°C and 630°C.

- Output of 2200 W
- 670g in weight
- Thumbwheel temperature display
- 7.5m flex length cable

Top Tip:

7.5m power cord for hard to reach areas.

STEINEL
PROFESSIONAL

STEINEL MH3 CORDLESS 18V HEAT GUN

- Temperature range of 300°C and 500°C
- Security lock button and LED illumination
- Compatible with all push on standard nozzles from STEINEL

STEINEL MH5 CORDLESS 18V HEAT GUN

- Ready for use in less than 4 seconds
- Temperature range of 50°C-500°C in 10° adjustable steps
- Features digital LCD display and LED work light

STEINEL HG 2320 E HEAT GUN

- 2300 W output
- Control joystick
- LCD screen
- Temperature range of 80°C and 650°C
- 2m flex length cable

STEINEL HL 1920 E HEAT GUN

- 2000 W output
- Features temperature adjustment/ airflow control in three settings
- Temperature range of 80°C and 600°C

STEINEL 18V/5.5AH BATTERY PACK

- Rechargeable lithium-ion battery pack
- Compatible with over 230 machines

STEINEL HEAT GUN CARRY CASE

- Hardwearing case
- Locks securely

STEINEL
PROFESSIONAL

STEINEL HL TEMPERATURE SCAN

- Temperature range between 0-300°C
- 165g in weight
- Easily attaches to Steinel heat guns

STEINEL HL PROTECTION TUBE

- Protects heat guns against damage when not in use
- Hard wearing plastic, extremely durable
- Suitable for use with Steinel heat guns

STEINEL HG 2120 E KIT

Included in this kit:

- HG 2120 E Heat Gun
- 7.5m Power Cord
- HL Temperature Scan
- Heat Gun Carry Case

INFRARED THERMOMETER

The infrared thermometers are ideal for post heating on vehicle wrap applications. The LCD display is simple to read.

The thermometer gives an accurate temperature reading, to ensure you follow manufacturer guidelines for post heating after application of vinyl.

- Light button for display illumination
- Built-in laser pointer for accurate reading
- Easy to read LCD display

Top Tip:

Post-heating is critical in any areas that have been stretched. Heat inch by inch, always removing the heat gun before reading the temperature of the vinyl. Use an infrared digital thermometer to ensure the film is post-heated to the correct temperature.

Top Tip:

Anti-slip feature helps when butt jointing architectural films together.

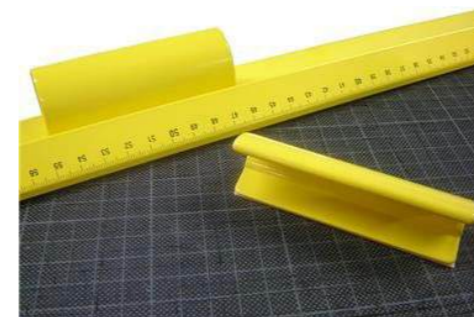

THE YELLOW 5 RULER

- Perfect stability on every surface
 - Raised edges to protect fingers
 - Anti-slip underside
- 50cm, 100cm, 155cm, 200cm

THE YELLOW 5 RULER - HANDGRIP

- Solid cast aluminium 9cm handle with double-sided adhesive
- For use with The Yellow 5 Ruler

FLEXI WIZARD - FLEXIBLE TAPE MEASURE

- Durable compact high quality tape measure
- Dual measuring scales
- White on one side and yellow on the other for improved visibility

CONTRACTOR 3M TAPE MEASURE

- Rugged rubber-grip case
- Wrist strap and belt clip
- 3 meters in length

A CLEAN FINISH.

VINYL REMOVERS

Vinyl Removers
Adhesive Removers
Scrapers

3M GRAPHIC REMOVER

- PH-neutral film and adhesive remover
 - Removes compatible 3M graphic films
- 1L

AVERY DENNISON ADHESIVE REMOVER

- A high performance cleaner
 - Easy to use and apply
 - Removes all adhesive residue
- 500ml

VION RIGHT OFF ADHESIVE REMOVER

- Removes adhesive residue in just 2 minutes!
 - PH neutral and harmless to substrates
 - Suitable for use on all types of film
- 1 litre and 5 litre bottles
1L, 5L

TRIUMPH SUPER SCRAPER

Designed for flat glass, this wide 15cm scraper is very thin but features a robust, thin, steel double edged scraper blade.

With rubber wiper fitted to the cover, it also includes a safety cover.

For flat glass applications

For use with 15cm Triumph super scraper blades

Wide thin robust blade

TRIUMPH SUPER SCRAPER BLADES

- Pack of 25 blades
 - Stainless Steel
- 25 pack

SCRAPERITE MINI (DWARF) COMBO SET

- Great little tool for effective removal of vinyl and adhesive
- Combo set includes x 3 curved x 3 straight blades
- Non scratch

LIL' CHIZLER

A small, thin window squeegee, it is ideal for smaller areas like triangular windows or squeezing out tiny air bubbles.

It is also perfect for removing dirt or old adhesives from the rear windows.

It will not damage defrost liners on the rear windows.

- Great for small areas
- Aids removal of dirt or old adhesives
- Small, thin window squeegee

Top Tip:

Great for removing cut lettering from vehicles as this tool reduces the risk of catching the paintwork.

WE'VE GOT IT COVERED.

THE KEY TO A GOOD WRAP USING THE 3M™ SURFACE PREPARATION CLEANER

The key to a good wrap is in the detail, preparation, design and application.

Successful vehicle wraps begin with good surface preparation and cleaning. Any surface contamination will prevent the film from adhering properly, which could potentially lead to a costly failure over time.

1. Clean the vehicle thoroughly with 3M™ Surface Preparation System to remove oils/waxes. Use lint-free paper towels, one to clean and one to dry off.
2. Saturate a clean paper towel with a solvent and thoroughly wipe the vehicle.
3. Wipe with a second paper towel before the solvent evaporates from the substrate. As the paper towel becomes dirty, discard it. A dirty towel just moves the dirt around and does not remove it.
4. After cleaning make sure that the vehicle is completely dry. If necessary, use a heat gun to dry any retained liquid.
5. Apply the vinyl immediately. Dust and contaminants prevent the adhesive from performing as expected.

3M SURFACE PREPARATION CLEANER

For correct preparation and cleaning of the vehicle surface prior to wrapping, this petroleum distillate based cleaner removes all traces of oils and waxes.

- Petroleum distillate based cleaner
 - Wipe on, dry off using lint free cloths
 - Recommended for use with 3M vehicle wrap films
- 1L, 5L

3M PAINT PROTECTION FILM INSTALLATION GEL

- Provides easier installations and better final appearance of paint protection films
 - Enables longer handling times due to thicker floating barrier
- 1 Gallon

AVERY DENNISON SPRAY BOTTLE

- High quality bottle
 - For use during wet applications and can be used in all orientations and angles
 - Perfect for paint protection film applications when used with Avery Dennison Application Gel
- 1.2L

AVERY DENNISON APPLICATION GEL

- Transparent gel designed to support the application of paint protection films
 - Easily cleaned after application even when fully dried
 - Available in 1 and 5 litre bottles
- 1L, 5L

VION SURFACE CLEANER

- Removes dirt, grease and adhesive residue
 - For quick and easy surface cleaning
- 1L, 1L 6 pack

AVERY DENNISON FLAT SURFACE CLEANER

- Suitable for large flat panels and rigid sided trucks
 - Removes day to day dirt from substrates during first pass cleaning
- 5L

**WIZARD PRO TOOLS
MICROFIBRE CLOTH PURPLE**

- Supersize 40cm x 60cm plush microfibre cloth
- Lint Free and dust free reducing the risk of damage to vinyl's
- Durable and machine washable for long term use

**AVERY DENNISON SUPREME
WRAP CARE POWER CLEANER**

- Protects and cleans vehicle graphics
 - Extra power to deal with difficult localised stains such as bird droppings, road grime and tree sap
 - No additional water required
- 946ml

**AVERY DENNISON SUPREME
WRAP CARE CLEANER**

- Cleans Vehicle Wrap Films; removes dust, fingerprints and other marks
 - Suitable for all wrap finishes
 - Water based product
 - No additional water required
- 946ml

TAK RAGS

- Strong and durable
 - Suitable for both wet and dry use
 - High absorption capacity and speed
- 50 pack

SEAL IT PEN

- Fast drying
- Long lasting edge seal
- Compatible with all types of film

Top Tip:

*Soft felt edge
eliminates scratches.*

3M FELT EDGED GOLD SQUEEGEE

Scratch resistant felt edged squeegee ideal for vehicle wrap applications, with a twin edge for dual use.

- Quick turn for dual use
- Ideal for vehicle wrap applications
- Also known as a twin edge gold applicator

3M FELT EDGED BLUE SQUEEGEE

- Twin edge for dual use
- Soft felt eliminates scratches
- Ideal for vehicle wrap applications

3M PA-1 BLUE APPLICATOR

- Great squeegee for everyday use
- Durable, long-lasting vinyl construction for smooth substrates
- Softer than 3M PA-1 Gold Applicator

3M PA-1 GOLD APPLICATOR

- For professional users, it is abrasion-resistant and extremely durable
- Medium hard, high glide and long lasting
- Can also be used with cotton sleeves to lessen risk of scratching

3M COTTON SQUEEGEE SLEEVES

- Helps prevent scratches if no application tape is used
 - Designed to fit over standard 3M gold and blue squeegees
 - Ideal for vehicle wrap applications
- 5 pack

Top Tip:

Renews your squeegees.

SQUEEGEE SHARPENER

- Handy sharpener tool
- Small knife in the groove which when pulled through fully smooths worn out squeegees

AVERY DENNISON SQUEEGEE FLEXTREME

- Micro squeegee
- Blue side for narrow curves and edges
- Red side ideal for narrow concave parts

Top Tip:

A must for 3M wraps.

3M MICROFIBRE SQUEEGEE STRIP

- Thin, soft micro-fibre strip
- For use on PA-1 gold squeegees
- Ideal for applying vehicle wrap films
- Minimum order quantity 10

AVERY DENNISON SQUEEGEE PRO

- Medium felt squeegee
- Flat and slightly curved surfaces
- Great for vehicle wraps

AVERY DENNISON SQUEEGEE PRO RIGID

- For flat applications of thick and rigid high performance films
- Very rigid squeegee
- For use on vehicle wraps and day to day applications

ARLON THE ONE SQUEEGEE

- Featuring two edge thicknesses
- Built for durability and precision, ensuring consistent performance in demanding applications
- Complete with velvet strip

ARLON VELVET CANDY FELT

- Super soft and durable for smoother applications
- Suitable for both wet and dry applications
- For use with The One Squeegee

DOORGASKET PULLER

- Riveted handle for user stability
- Easy to hook door rubbers

AVERY DENNISON SQUEEGEE PRO FLEXIBLE

- Soft flexible squeegee
- Ideal for curved applications

AVERY DENNISON SQUEEGEE ORANGE (FLEXIBLE)

- Non felt flexible squeegee
- Perfect for applications of paint protection and window films
- More flexible version of the Squeegee Yellow

ARLON STEALTH TOUCH MICRO-SQUEEGEE

- Flexible yet firm squeegee for those hard to reach areas
- Smooth edge design with micro rounding to prevent film cutting
- Compact and small design which fits perfectly into toolbelt

SQUEEGEE STRIPS

- Available in packs of 25 strips
- For use on Avery Dennison Squeegee Pro, Pro Flexible and Pro Rigid
- Ideal for applying vehicle wrap films

SQUEEGEE STRIP ROLL 5M ROLL

- Easy to cut to size
- Handy ruler on the side of the box
- Reduces scratching of material when applying vehicle wrap films

AVERY DENNISON SQUEEGEE YELLOW (RIGID)

- Rigid non felt squeegee
- For applications of window and paint protection films
- A rigid but still flexible squeegee

AVERY DENNISON SNITTY

- A mini-slitting tool
- For cutting self-adhesive material
- Complete with blade refill

**ARLON STEALTH KNIFE**

- 30° Ultra sharp cutting edge
- Features a safe sliding lock
- Built to withstand heavy use

**3M SNITTY**

- For neat trimming of vinyl films
- Safe and easy to use
- Enclosed blade design

**SPARE BLADES BOX**

- Dispenses and disposes blades
- Purchased with 15 spare 30° blades
- Durable and hardwearing

**AVERY DENNISON APPLICATION KNIFE**

- 30° angled blade
- Specially designed for graphic applications
- Accurate cutting

**SWANN MORTON NO.2 PLASTIC CRAFT HANDLES**

- Ideal for precision work
 - Thumbscrew for blade changing and retaining
 - For use with No.2 craft blades
- 10 pack

**OLFA PROFESSIONAL CUTTER 30°**

- 30° angle perfect for precision work
- Stainless steel handle
- Pocket clip and blade snapper

**SWANN MORTON BLADE REMOVAL BOX**

- Safe and effective blade removal and disposal unit
- Holds 100 blades

**OLFA SAFE BLADE DISPOSAL UNIT**

- Disposable holster
- Two blade snapping positions
- Simple to use
- Easy blade snapping

3M DEEP CHANNEL APPLICATION ROLLER

Designed for vehicle wrap film applications, the roller tool applies uniform pressure when forming into deep channels and corrugations. Available in two sizes.

- For application into deep channels
- Small and large sizes available
- Applies uniform pressure when forming into deep corrugations

Small, large

Top Tip:

A must if using 3M ControTAC adhesives.

Top Tip:

Have the right tools.

Application roller tools aid and ensure a maximum adhesive bond within any recessed area. The small channel roller must be used after post heating, while the vinyl is still warm, with significant pressure around the entirety of the recess. Many van recesses have a very tight angle at the deepest part, where a finger alone doesn't provide enough pressure for the film to stay in place.

ROLLEPRO

- Ergonomic design with specially formulated heat-resistant wheel
- Works great with door handles, rivets and side mouldings
- Over 50% faster installations which eliminates the need for brushes and other rivet applicators

3M AIR RELEASE TOOL

- Pen like air release tool
- Used to release air bubbles in vehicle graphics or paint protection films
- Additional replacement tips available

AIR-RELEASE TOOL

- Retractable air release pen
- Removes air release bubbles when applying vehicle wrap or paint protection films
- Sharp, fine point

3M AIR RELEASE TOOL REPLACEMENT POINTS

- Replacement points for use in 3M air release tools
- Used to release air bubbles in vehicle graphics or paint protection films
- Sold individually

FINISH LINE KNIFELESS TAPE

- Ideal for finishing vehicle graphic installations without a blade
- Conformable around bumpers, door handles and mirrors
- Create precise cut lines
- 3.5mm x 50m

PERF LINE KNIFELESS TAPE

- For use with perforated window films
- Great for vehicle wraps and window wraps
- Can be used to bridge tight gaps and trimming
- 6.35mm x 50m

3M PRECISION LINE KNIFELESS TAPE

- Create clean, seamless butt joints between the most challenging films
- Can be torn by hand for faster application
- For single or multiple layer vinyl applications
- 5mm x 50m

DESIGN LINE KNIFELESS TAPE

- Allows stretching, follows contours and turns easily in any direction
- Excellent for creating designs and stripes
- The tape can be broken with hands for faster application
- For single layer vinyl applications
- 3.5mm x 50m

BRIDGE LINE KNIFELESS TAPE

- Specifically for bridging wide gaps
- For single or multiple vinyl layer applications
- 12mm x 50m

3M TRIM TAPE

- Flexible, conformable, versatile and moisture resistant
- Trim with sharper and straighter lines
- Easy to apply and removes cleanly
- 6mm x 32.9m

TRI LINE KNIFELESS TAPE

- For single layer vinyl applications
- Stretches slightly and turns easily in any direction
- Create pinstripes, gaps and butt seams that rival using a knife or plotter
- Tape can be broken with hands for faster application
- 6mm x 50mm, 9mm x 50mm

APPLICATION GLOVES

- Seamless gloves for optimal gliding over vinyl
- Perfect for vehicle wrap applications
- Sold as pairs
- Available in Medium, Large and Extra Large

SPEEDCLIP

- Soft plastic leaves no impression on film
- Handy finger grip
- Flexible and self-closing

NYLON PUSHSTICK

- Plastic application tool
- Helps applications around headlights and roof edges
- Great for hard to reach areas
- Sturdy and durable tool for wrapping

ARLON STEALTH GLOVE

- Made from durable lycra and polypropylene offering premium performance, perfect for Vehicle Wrap Applications
- Universal one size fits all
- Touchscreen compatible

ARLON THE HELPING HAND

- Robust Helping Hand magnet ideal for holding vinyl in place during wrapping applications
- Compact design featuring folding ring for easy movement and storage
- Combines functionality with a sleek, professional appearance

THE FINISHER

- Pen style tool with 2 different spoon positions
- Coated metal spoons
- Perfect for pressing down film in difficult to reach areas

SIGNGRIPPER MAGNET

- Strong magnetic base and handle
- Mount graphics and apply vinyl wraps easily and accurately
- Long handle aids positioning and leverage
- Sold as individual magnets

RIVET BRUSH

- For hand application of graphic films over rivets
- Easy installation
- Value brush

3M RBA 1 RIVET BRUSH

- Premium small rivet brush applicator to help apply and conform graphics or films over rivets and corrugations
- Easy installation
- Brush applicator for rivets

WRAP TWEEZER II

Two sharp points that fit well together so that vinyl can be easily picked up within cracks, seams, headlights and taillights.

Designed for use on tricky areas

Great for hard to reach areas

Made from stainless steel for long lasting use

TWEEZER

- Stainless steel coated
- Pointed nose that curves on the outside while being flat on the inside
- Easy to grip

WRAP TWEEZER I

- Flat round nose limits risk of tears
- Made from long lasting stainless steel
- Ideal for hard to reach areas

3M TOOL BAG

Professional handy tool belts to hold a range of application tools for easy access whilst working.

Holds a range of application tools

Handy tool belt

ARLON TOOL BUNDLE

Complete tool kit bundle perfect for professional wrappers and installers.

Bundle includes:

Stealth Glove, Stealth Knife and Blades, Stealth Toolbelt, Stealth Squeegee, The Helping Hand Magnet, The One Squeegee and Candy Felt.

WIZARD PRO TOOLS PRO POUCH - ARCHITECTURAL WRAP TOOL POUCH

- Multiple pockets for easy storage and quick access to tools
- Quick release adjustable tool belt included
- Featuring suede flap and leather look pouch making it stylish and durable

SOTT LADYBAG

- Simple to use
- Many pockets to fit essential tools
- Hard wearing material
- For use with Heavy Duty Nylon Belt

TOOLBAG BAR

- Simple to fix to tool belts
- Perfect for carrying large tools
- Resistant against rust and oxidation

TOOL BAG MINI

- Compact, lightweight tool bag perfect for storing tools
- Comes with adjustable heavy duty nylon tool belt

AVERY DENNISON TOOL BELT

- Handy waist tool belt
- Holds magnets
- Adjustable belt

SOTT TOOL BOX

- 30 litre capacity tool box for everything you need in one place
 - Quick access pockets on the front
 - Adjustable shoulder strap
- 52cm x 30cm

SOTT PROFESSIONAL TOOL BAG

- Specially designed knife compartments
- Made of industrial grade textile material
- Extra magnetic pocket
- For use with Heavy Duty Nylon Belt

HEAVY DUTY NYLON BELT

- Heavy duty belt
- Adjustable strap
- For use with SOTT Professional tool bag and SOTT Ladybag

ARLON STEALTH TOOLBELT

- Durable, high quality tool belt designed for heavy duty use
- Adjustable loops, magnetic plates, and multiple pouches for tool organization
- Perfect tool belt for all your wrapping tools

INFRARED THERMOMETER

The infrared thermometers are ideal for post heating on vehicle wrap applications. The LCD display is simple to read.

The thermometer gives an accurate temperature reading, to ensure you follow manufacturer guidelines for post heating after application of vinyl.

- Light button for display illumination
- Built-in laser pointer for accurate reading
- Easy to read LCD display

Top Tip:

Post-heating is critical in any areas that have been stretched. Heat inch by inch, always removing the heat gun before reading the temperature of the vinyl. Use an infrared digital thermometer to ensure the film is post-heated to the correct temperature.

HOW SHOULD I POST HEAT?

Post heating must be done after each panel is completed using a digital thermometer for accurate temperatures.

Always remove the heat gun from the area you're measuring the temperature, heat and measure every 3-4 inches referring to product bulletins for recommended temperatures.

Use a small channel roller in the recesses.

WHY SHOULD I POST HEAT?

Post heating speeds up the process of adhesive flow and helps reach maximum adhesive bond over a short amount of time.

Post heating removes the film memory. If you do not post heat correctly this will cause the film to pop from a recess.

STEINEL HG 2120 E HEAT GUN

- Output of 2200 W
- 670g in weight
- Thumbwheel temperature display
- 7.5m flex length cable

STEINEL HG 2120 E KIT

- Included in this kit:
- HG 2120 E Heat Gun
 - 7.5m Power Cord
 - HL Temperature Scan
 - Heat Gun Carry Case

HEAT GUN HOLDER

- A convenient holder for your heat gun
- Ideal for installing in high places
- Use with two Goliath magnet

STEINEL HL TEMPERATURE SCAN

- Temperature range between 0-300°C
- 165g in weight
- Easily attaches to Steinel heat guns

HEAT GUN STAND

- Ideal tool for holding heat guns safely
- Complete with hooks to keep cables tidy

THE GOLIATH MAGNET

- Extra strong, extra-large, multifunctional
- Rounded handle to prevent damage to the vinyl
- Opening in handle for accessories
- Sold as individual magnets

DISTANCE BRACKET PACK

- Value bundle
- Includes two Goliath magnets with the distance bracket
- Ideal bundle for vehicle applications

DISTANCE BRACKET

- A handy bracket for your cloths and spray bottles
- Use with two Goliath magnets

3M SURFACE PREPARATION CLEANER

- For correct preparation and cleaning of the vehicle surface prior to wrapping
- This petroleum distillate-based cleaner removes all traces of oils and waxes

Top Tip:

Apply 3M surface prep with one cloth and remove with a second clean cloth.

AVERY DENNISON SURFACE CLEANER

- A high performance cleaner
 - Removes all kinds of residue in one single action
 - Solvent free making it an environmentally friendly option
- 1L

3M PAINT PROTECTION FILM INSTALLATION GEL

- Provides easier installations and better final appearance of paint protection films
 - Enables longer handling times due to thicker floating barrier
 - Clings well to vertical and horizontal surfaces
- 1 Gallon

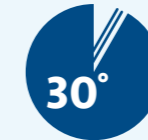

SOTT CLAY BAR

- Perfect for deep cleaning vehicles before applications
- Breaks down stubborn dirt, that degreasers and cleaners can't

Top Tip:

Use 30° blades for a sharper cut.

OLFA PROFESSIONAL CUTTER 30°

- 30° angle perfect for precision work
- Stainless steel handle
- Pocket clip and blade snapper

ADDITIONAL OLFA 30° SNAP-OFF BLADES
10 pack

AVERY DENNISON APPLICATION KNIFE

- 30° angled blade
- Specially designed for graphic applications
- Accurate cutting

AVERY DENNISON APPLICATION GEL

- Transparent gel designed to support the application of paint protection films
 - Easily cleaned after application even when fully dried
 - Available in 1 and 5 litre bottles
- 1L, 5L

AVERY DENNISON SPRAY BOTTLE

- High quality bottle
 - For use during wet applications and can be used in all orientations and angles
 - Perfect for paint protection film applications when used with Avery Dennison Application Gel
- 1.2L

AIR-RELEASE TOOL

- Retractable air release pen
- Help's remove air release bubbles when applying vehicle wrap or paint protection films
- Sharp, fine point

3M AIR-RELEASE TOOL

- Pen like air release tool
- Used to release air bubbles in vehicle graphics or paint protection films
- Additional replacement tips available

AVERY DENNISON PPF SQUEEGEE PRO FLEX SMALL

- For use when applying paint protection films
- Enables installers to achieve the correct install pressure
- 65mm wide making it suitable for tight detailed spaces

THE PINK SHAVED SQUEEGEE

- Ideal for applying paint protection films
- Medium squeegee with thin flexible edges
- Allows you to apply the right of pressure on bonnets, bumpers, roofs, wings and doors

ORANGE CRUSH

- Stiff plastic squeegee
- Ideal for removing moisture from under films
- Available in 13cm and 20cm

SOFTLINE TURBO SQUEEGEE

- Firm yet very soft when used during wet application
- Specially shaped for squeezing in window frames and difficult corners
- Available in 9cm and 14cm

THE BLUE MAX

- Suitable for wet and flat applications
- Blade squeegee for maximum water removal
- Perfect for thick and stiff films

THE CLEAR MAX

- Ideal for wet and slightly curved applications
- A slightly softer version of the popular Blue Max squeegee blade
- Features a bevelled front edge

Top Tip:

Perfect tool when extra pressure is needed.

METAL SQUEEGEE HANDLE

- For use with The Blue Max and The Clear Max squeegee
- Performax handle is recommended for extra pressure
- 130mm (5") wide

STEINEL
PROFESSIONAL

HEAT GUN STAND

- Ideal tool for holding heat guns safely
- Complete with hooks to keep cables tidy

STEINEL HG 2120 E HEAT GUN

- Temperature range of 80°C and 630°C
- Thumbwheel temperature display
- 7.5m flex length cable

SIGNGRIPPER MAGNET

- Strong magnetic base and handle
- Long handle aids positioning and leverage
- Sold as individual magnets

ARLON STEALTH TOOLBELT

- Durable, high quality tool belt designed for heavy duty use
- Adjustable loops, magnetic plates, and multiple pouches for tool organization
- Perfect tool belt for all your wrapping tools

ARLON THE HELPING HAND

- Robust Helping Hand magnet ideal for holding vinyl in place during wrapping applications
- Compact design featuring folding ring for easy movement and storage
- Combines functionality with a sleek, professional appearance

APPLICATION GLOVES

- Seamless gloves for optimal gliding over vinyl
- Perfect for vehicle wrap applications
- Sold as pairs
- Available in Medium, Large and Extra Large

AVERY DENNISON TOOL BELT

- Handy waist tool belt
- Metal plate to hold magnets
- Comes with adjustable heavy duty tool belt

TOOL BAG MINI

- Compact, lightweight tool bag perfect for storing tools
- Comes with adjustable heavy duty nylon tool belt

3M TOOL BAG

- Professional handy tool belts to hold a range of application tools for easy access whilst working
- Adjustable nylon tool belt

PERFECT POSITIONING.

Trimming Tools

VION®

RIGHT ON APPLICATION FLUID

- 3 minutes to position before adhesion starts
- Ideal and easy to use for all wet applications
- Faster than soap and water
1L, 5L

RIGHT OFF ADHESIVE REMOVER

- Removes adhesive residue in just 2 minutes
- PH neutral and harmless to substrates
- Suitable for use on all types of film
1L, 5L

VION SURFACE CLEANER

- For quick and easy surface cleaning
- Removes dirt, grease and adhesive residue
- Works fast and dries during polishing
1L, 1L 6 pack

WINDOW FILM POLISH

- Produces a protective layer
- Prevents scratches and scuffs
- For use with window films
500ml

INDUSTRIAL GLASS CLEANER

This cleaning agent degreases glass thoroughly for installation of film on large glass areas and windows
1L

Pleasant odour, no lingering smells

Deep-cleans and dries fast

One litre bottle available

Top Tip:

Apply remover to the existing film, cover with a piece of old film or liner. After a few minutes, remove the piece of old film or liner and the old window film will be released with it.

DIRT-OFF

- Recommended for cleaning windows before applying vinyl
- Contains a highly diluted 'acid' for removing grease, oil and dirt from glass without damaging its surface
- Ideal for use as a bonding aid to improve adhesion to rear windscreen demisters
- Removes dirt, grease and oil from glass

0.9463L

TINT-OFF WINDOW FILM REMOVER

- Soluble liquid designed to help remove self-adhesive films from windows
- Easy to use and apply
- Unique formulation

1L

STEINEL HG 2120 E HEAT GUN

The HG2120 E heat gun is perfect for intense work sessions internal and external. An all-rounder, it has a high performance motor and is ergonomics optimised, making it not only practical but comfortable to use. With 2200 W of power it can deliver hot air between temperatures of 80°C and 630°C.

Thumbwheel temperature display

7.5m flex length cable

Output of 2200 W

670g in weight

SOFT SURFACE SCRAPER MINI

- Non scratch
- Adhesive and dirt removal

ADDITIONAL STRAIGHT
SCRAPER BLADES
5 pack

Top Tip:

Use stainless steel blades only; these won't rust, as material is applied wet.

OLFA CUTTER

- Gradual release blades
- Suitable for left or right hand use
- Auto lock

ADDITIONAL OLFA
45° SNAP-OFF
BLADES
10 pack, 50 pack

OLFA PROFESSIONAL CUTTER 45°

- 45° angle
- Stainless steel handle
- Auto lock function

ADDITIONAL OLFA
45° SNAP-OFF
BLADES
10 pack, 50 pack

THE SLAMMER

- Non-scratch
- Ideal for hard to reach areas
- For use on automotive window films

WINDOW EDGE WIZARD - 5 PIECE SET AND STORAGE TIN

- Set of 5 trimming tools supplied in a re-usable metal storage tin
- Great for applying frosted window films
- For use with snap-off blades only

THE RED DEVIL

- Very thin flexible squeegee
- Designed for reaching sharply angled corners

THE CHIZLER

- Ideal for applications in tight corners
- Hard plastic with rigid edges
- Durable

LIL' CHIZLER

- Great for small areas
- Aids removal of dirt or old adhesives
- Small, thin window squeegee

5 WAY TOOL

A tough plastic ruler designed for applying vinyl and window films onto flat glass. It makes cutting in window film edges and corners easy. A unique design enables cutting in different angles.

- Unique design for window edges and corners
- Specially shaped 5 way sides
- Tough plastic ruler

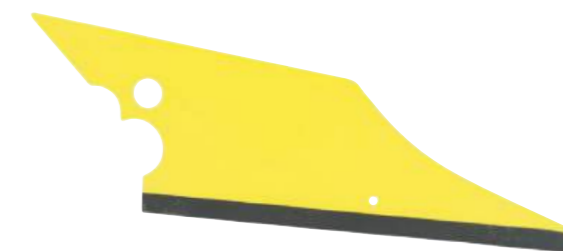

CONTRA VISION PERFECTION SQUEEGEE

- Custom-designed for accurate installation, trimming, and finishing of perforated window films
- Durable PTFE construction glides effortlessly over both laminated and unlaminated films without needing protective sleeves
- Built-in cut guides at 3mm, 6.35mm, and 12.7mm ensure precise trimming

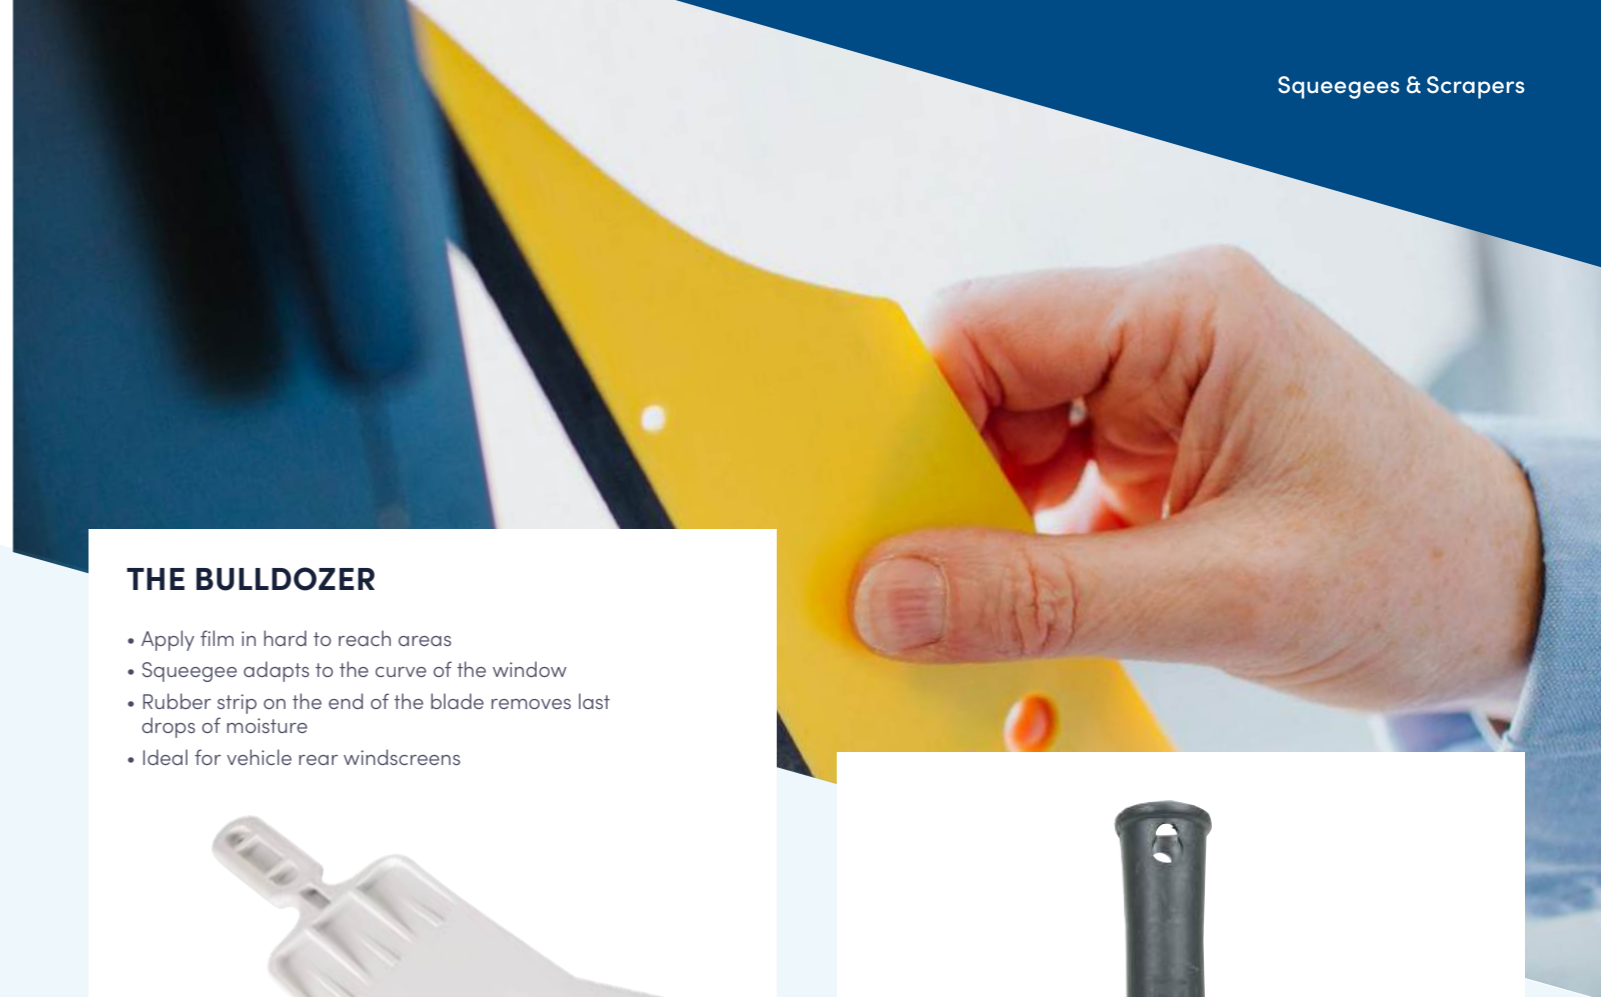

THE CLEAR MAX

- Ideal for wet and slightly curved applications
- A slightly softer version of the popular Blue Max squeegee blade
- Features a bevelled front edge

CONQUERER SQUEEGEE

- Ergonomic design
- Specially designed for installation of window films
- Perfect for applying film in tight and sharp angled corners

THE TITAN

- Manufactured from sturdy, flexible and unbreakable plastic
- Profile variations provide versatility
- Ideal for deep and low-lying rear windscreens
- Perfect for getting into corners and between window seals

ORANGE CRUSH

- Stiff plastic squeegee
- Ideal for removing moisture from under films
- Compatible with Fusion 5 and Fusion 8 handles
- 13cm, 20cm

THE SLIMFOOT

- Special long thin squeegee
- Ideal for hard to reach areas
- Perfect for use on flat rear windows

THE BULLDOZER

- Apply film in hard to reach areas
- Squeegee adapts to the curve of the window
- Rubber strip on the end of the blade removes last drops of moisture
- Ideal for vehicle rear windscreens

TRIUMPH SUPER SCRAPER

- For flat glass applications
- Wide thin robust blade
- For use with 15cm Triumph super scraper blades

ADDITIONAL BLADES
25 pack

SCOURING PAD SQUEEGEE

- Sturdy plastic squeegee allowing pressure to be applied when cleaning
- Scouring pad attaches to a strip of velcro
- Use to clean windows in hard to reach or large areas

ADDITIONAL SCOTCHBRITE SCRUB PAD

METAL SQUEEGEE HANDLE

- 130mm (5") wide
- Ideal for mounting soft squeegees
- For window film application where less pressure is required

THE CHISEL

- Slender form enables seal to be lifted easily
- Ideal for guiding and applying vinyl under window and door seals

THE BLUE MAX

- Suitable for wet and flat applications
- Blade squeegee for maximum water removal from automotive or flat glass installations
- Perfect for thick and stiff films

OLFA EXTRA HEAVY DUTY SCRAPER

- 200mm dual-scrape, carbon tool with steel blade
- Extra tough die-cast metal handle
- X-design non-slip rubber grip for comfort and stability

SOTT-5 HAND GRIP - 13CM

- Sturdy anti-slip foam coated handle
- Allows extra pressure to be exerted on wet applications
- Perfect for use on large window areas

THE EDGE

- Larger stiff squeegee with smooth finish
- Perfect for applying window tints to vehicles
- Allows you to clean those hard to reach areas on rear windows

DOORGASKET PULLER

- Riveted handle for user stability
- Easy to hook door rubbers

HOLD IT TOGETHER.

HOLDING AIDS & FIXINGS

Holders
Stackers
Suckamount
Button Fix

**WIZARD PRO TOOLS PROHOLDER
- 4 SLOT**

- Designed to help keep your workspace organised and doors safe
- Handy storage tray on each side
- Available in 4 slot and 6 slot versions

**WIZARD PRO TOOLS PROHOLDER
- 6 SLOT**

- 6 slot vertical stacking system
- Anti-slip base making it suitable for use on worktops
- Suitable for small to medium sized doors and drawer fronts
- Use together with Stackerz for the perfect all-round solution

WIZARD PRO STACKERZ

- Horizontal stacking system for doors & boards
- Fits and stores perfectly into the ProHolder and ProHolder XL
- 30mm square base x 32mm high
- Revolutionize your workspace with this smart stacking solution!

SUCKAMOUNT BENCH MOUNT KIT

- A game changing suction system made with unique 4Ninety locking system to hold your panels securely while wrapping
- Lightweight, durable, and compatible with all current and future Suckamout attachments
- Secures to your work surface using four screws, perfect for permanent fixing
- Kit includes: 1 x Female Suckamout, 1 x Male Bench Mount Plate (screw-down installation)

**SUCKAMOUNT
DOUBLE KIT**

- Designed for fast, flexible panel positioning
- Secure panels, apply rolls with ease and adapt to any job with these durable and easy to install pro-grade tools
- Featuring suction cups on both side allowing it to be used to stick anywhere
- Kit includes: 1 x Double Suckamout

**SUCKAMOUNT BASE
PLATE**

- Helps to securely fix the female Suckamout to any bench or table
- Built for flexibility and durability
- Quick set up in any workplace

**SUCKAMOUNT 45
STATIC**

- 45° Static Adapter
- Compact design, durable and easily portable
- Compatible with all kits to take your panel from horizontal at 180° to 45° for easy working and better access
- Ideal for kitchen wraps, worktops and angle panel installs

**SUCKAMOUNT
ROLLER KIT**

- Expand your Double Suckamout Kit's functionality with the Roller Mount Kit
- Includes both Male and Female mounts for secure roller fitting
- Creates faster workflow and superior film application

**SUCKAMOUNT
100MM SPACER**

- 100mm spacer
- Ideal for when working on lower benches, attach the spacer for more comfortable working
- Compatible with all kits using the 4Ninety Locking System

**SUCKAMOUNT
MALE HANDLE**

- Enhance control and safety when handling large panels
- The handle attachment installs in seconds - no tools needed
- Compatible with Bench Mount and Double Suckamout Kits

BUTTON FIX

Innovative, versatile and fitter-friendly, Button-fix is a new sign component accessory which offers a quick and precise way of attaching panels to walls and other substrates.

The product comes in four models and works by bringing panels together with durable nylon buttons, which are attached to the back of one panel and mating fixes fastened to the other, these then slide until the Button-fixes 'click' into place.

Secretly fixing mechanism designed for use on parallel wooden panels of any thickness

Fitter friendly, secure and versatile

Can be used to securely fix internal panels, overflying panels and hinge access panels

Provides a strong and rigid fixing

THE ESSENTIALS

FIXINGS

TYPE 1

- Fitter friendly, secure and versatile
- Fix width 55mm, height 45mm, depth 8mm
- For use with parallel wooden panels of any thickness
- * Minimum order quantity 12

TYPE 1 - BONDED

- Ideal for lightweight applications
- Reversible- surface-mounted or rebated
- Provides strength and rigidity
- Suitable where screw fixing is not possible
- * Minimum order quantity 12

TYPE 1 - FLUSH

- Allows for panel-to-panel contact
- Suitable for edge rebates of 28mm + panels, or face 18mm + panels
- Provides strength and rigidity
- * Minimum order quantity 12

TYPE 2

- Product can be used for internal panels, overflying panels and hinge access panels
- Allows for panel-to-panel contact
- Provides strength and rigidity
- For applications connecting 90° panels together
- * Minimum order quantity 12

BUTTONS

BUTTON FOR COUNTERSUNK WOOD SCREWS

- Diameter 18mm
- To be used with 5mm diameter countersunk wood screws
- * Minimum order quantity 12

BUTTON FOR EURO SCREWS

- Diameter 18mm
- To be used with Varlanta euro screws
- * Minimum order quantity 12

BUY SEPARATELY OR TOGETHER

Minimum order quantity of 12

TYPE 1 & BUTTON FOR COUNTERSUNK WOOD SCREWS

TYPE 1 – BONDED & BUTTON FOR COUNTERSUNK WOOD SCREWS

TYPE 1 – FLUSH & BUTTON FOR COUNTERSUNK WOOD SCREWS

TYPE 2 & BUTTON FOR COUNTERSUNK WOOD SCREWS

BUTTON MARKER TOOL

- Suitable for use with Type 1 Fix
- Helps align panels quickly
- * Minimum order quantity 4

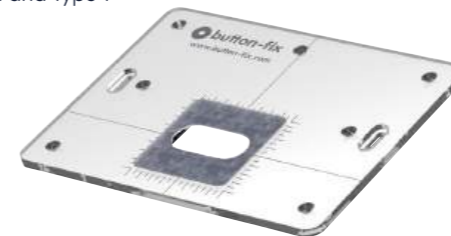

BUTTON MARKER TOOL TYPE 2

- Helps accurate installation of Type 2 Fixes
- Helps align panels quickly
- * Minimum order quantity 4

ROUTER JIG

- Made from a clear acrylic
- Etch guide marks
- Suitable for use with Type 1, Type 1 Bonded and Type 1 Flush Fixes

SAFETY CORD

- Suitable for use with Type 2 Fix
- 160mm in length
- Designed to provide extra hold and safety
- * Minimum order quantity 6

SELF ADHESIVE FIX PAD

- Easy peel liner release
- Speeds up application process
- Use with rebated configuration fixes
- 12 pack

THE FINISHING TOUCH.

SIGN COMPONENTS

Clips
Banding
Baseplates
Post Caps

RSJ CLAMP

- Comes complete with bolt, nyloc nut and washer
- The nyloc nut is supplied to prevent loosening by traffic or wind vibrations

Box of 10

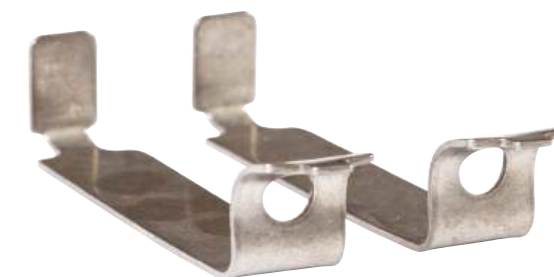

Top Tip:

Never use bolts without the washers supplied or the fixing will not remain secure.

ANTI-ROTATIONAL CLIPS

- Round stainless steel clips
 - For fast simple sign installations
 - Supplied complete with nuts, bolts and washers
- 50mm, 60mm, 76mm 89mm, 102mm, 114mm, Box of 100

BACK TO BACK CLIPS

- Stainless steel clips
 - For use with anti-rotational clips
 - Supplied complete with nuts, bolts and washers
 - Box of 10
- 76mm, 80mm, 89mm, 102mm, 114mm, 140mm, Box of 100

UNIVERSAL CHANNEL CLAMPS

- Stainless steel channel clamps
 - For use with stainless steel band and buckles
 - Clamps tightly against the channel holding signs securely in place
- Box of 100

BANDING TOOL

- Quality drop forged tensioning tool
- For use with stainless steel band and buckles

STAINLESS STEEL BAND

- 30m rolls with a standard width of either 13mm or 19mm wide
- For use with buckles and banding tools

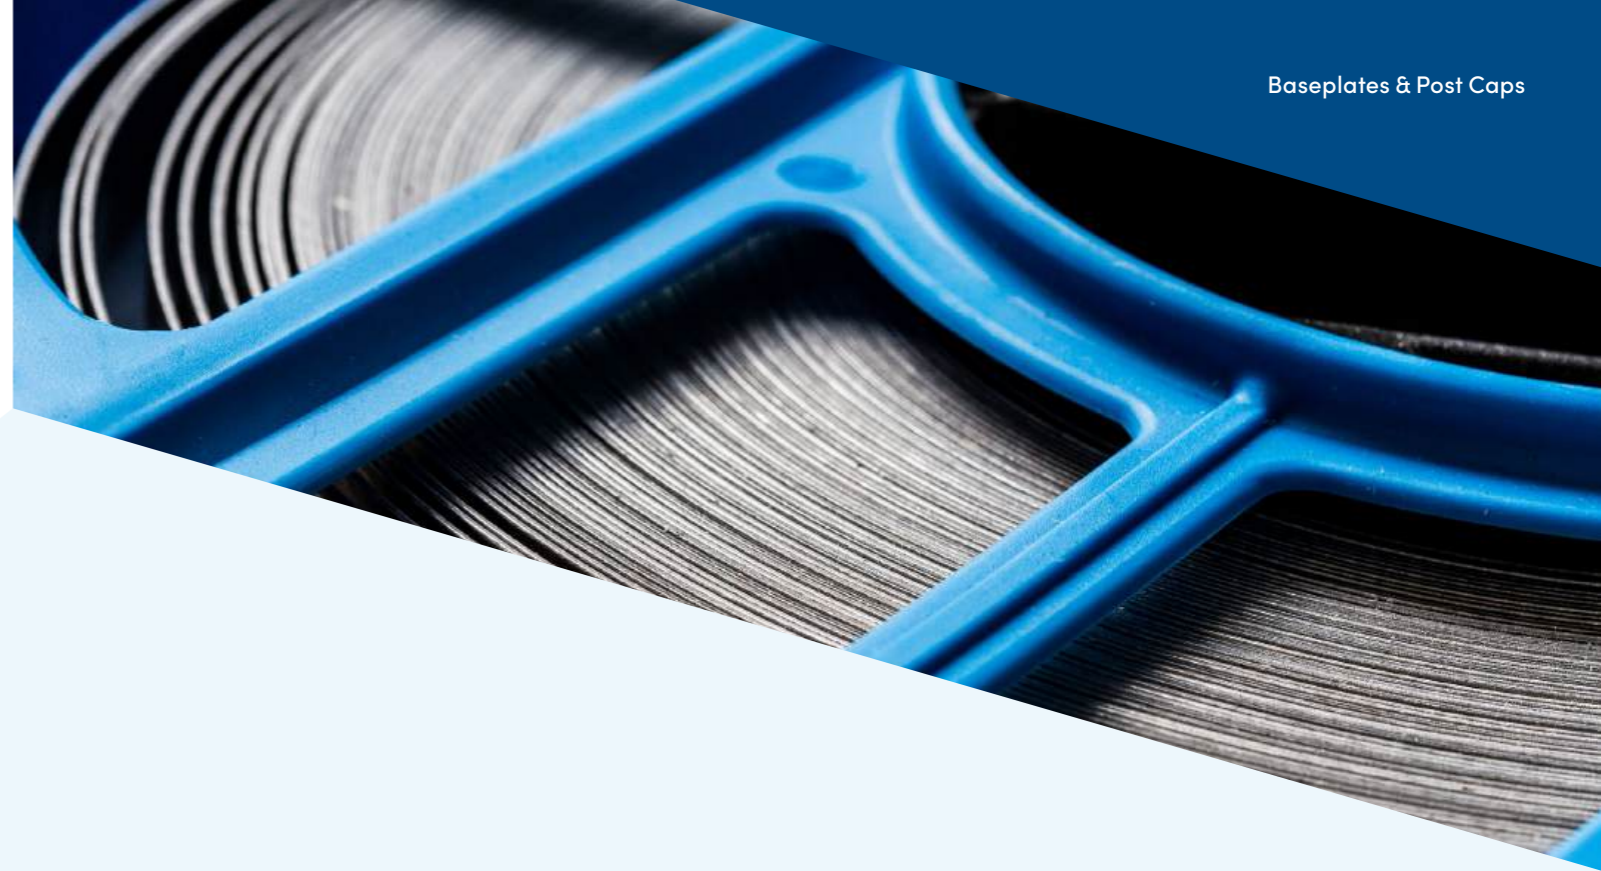

STAINLESS STEEL BUCKLES

- Stainless steel
 - For use with banding
 - Available in 13mm and 19mm
- Box of 100

SCREWBANDS

- Stainless steel
 - Available in 24" and 36"
 - For use on non-standard size posts/columns
 - Use with universal channel clamps
- Box of 100

MILD STEEL CLAMP ON BASEPLATES

- Round baseplates available in various sizes
 - Used to prevent rotation/uprooting of sign posts
- 50mm, 60mm, 76mm, 89mm, 114mm

POST CAPS

- Round post caps - available in black, white and grey
- Internal and external options
- Available in various sizes

WILLIAM SMITH GROUP 1832

ACADEMY

TRAINING THE PROFESSIONALS

The Training Academy, part of William Smith Group 1832, is dedicated to both training and inspiring the sign, graphics and interiors industry, with whom it's been servicing for over 100 years.

With our state-of-the-art Inspiration Centre now open, we are delighted to offer a range of training courses across our product portfolio, underlining our commitment to our continually expanding product range. Whether you are looking to become a trained installer, learn how to sell the products we offer, or just want a taster for the products and opportunities in the market place, we have the training course for you.
